Braddock Multi-Strategy Income Fund
NOTES TO FINANCIAL STATEMENTS
June 31, 2017 (Unaudited)

Note 1 – Organization

The Braddock Multi-Strategy Income Fund (the “Fund”) was organized as non-diversified series of Investment Managers Series Trust, a Delaware statutory trust (the “Trust”) which is registered as an open-end management investment company under the Investment Company Act of 1940, as amended (the “1940 Act”). The Fund seeks total return with an emphasis on providing current income. The Fund currently offers four classes of shares: A shares, C shares, T shares, and Institutional shares. The Fund commenced investment operations on December 31, 2015. Class T shares are not currently available for purchase.

The Fund commenced operations on December 31, 2015, with Class A, Class C, and Institutional Class shares, prior to which its only activity was the receipt of a \$10,000 investment from principals of the Fund’s advisor and a \$49,561,285 transfer of shares of the Fund in exchange for the net assets of the Braddock Structured Opportunities Fund Series A, LP, a Delaware limited partnership (the “Company”). This exchange was nontaxable, whereby the Fund’s Institutional Class issued 4,933,206 shares for the net assets of the Company on December 31, 2015. Assets with a fair market value of \$49,561,285 consisting of cash, interest receivable and securities of the Company with a fair value of \$46,984,053 (identified costs of investments transferred were \$44,433,272) and cash were the primary assets received by the Fund on January 1, 2016. For financial reporting purposes, assets received and shares issued by the Fund were recorded at fair value; however, the cost basis of the investments received from the Partnership was carried forward to align ongoing reporting of the Fund’s realized and unrealized gains and losses with amount distributable to shareholders for tax purposes.

The shares of each class represent an interest in the same portfolio of investments of the Fund and have equal rights as to voting, redemptions, dividends, liquidation, income and expenses, except class specific expenses, subject to the approval of the Trustees. Shareholders of a class that bears distribution and service expenses under the terms of a distribution plan have exclusive voting rights to that distribution plan.

The Fund is an investment company and accordingly follows the investment company accounting and reporting guidance of the Financial Accounting Standards Board (FASB) Accounting Standard Codification, Financial Services – Investment Companies”, Topic 946 (ASC 946).

Note 2 – Accounting Policies

The following is a summary of the significant accounting policies consistently followed by the Fund in the preparation of its financial statements. The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America (“GAAP”) requires management to make estimates and assumptions that affect the reported amounts and disclosures in the financial statements. Actual results could differ from these estimates.

(a) Valuation of Investments

The Fund values equity securities at the last reported sale price on the principal exchange or in the principal over the counter (“OTC”) market in which such securities are traded, as of the close of regular trading on the NYSE on the day the securities are being valued or, if there are no sales, at the mean between the last available bid and asked prices on that day. Securities traded on the NASDAQ are valued at the NASDAQ Official Closing Price (“NOCP”). Debt securities are valued by utilizing a price supplied by independent pricing service providers. The independent pricing service providers may use various valuation methodologies including matrix pricing and other analytical pricing models as well as market transactions and dealer quotations. These models generally consider such factors as yields or prices of bonds of comparable quality, type of issue, coupon, maturity, ratings and general market conditions. If a price is not readily available for a portfolio security, the security will be valued at fair value (the amount which the Fund might reasonably expect to receive for the security upon its current sale) as determined in good faith by the Fund’s advisor, subject to review and approval by the Valuation Committee,

Braddock Multi-Strategy Income Fund
NOTES TO FINANCIAL STATEMENTS – Continued

pursuant to procedures adopted by the Board of Trustees. The actions of the Valuation Committee are subsequently reviewed by the Board at its next regularly scheduled board meeting. The Valuation Committee meets as needed. The Valuation Committee is comprised of all the Trustees, but action may be taken by any one of the Trustees.

Trading in securities on many foreign securities exchanges and OTC markets is normally completed before the close of business on each U.S. business day. In addition, securities trading in a particular country or countries may not take place on all U.S. business days or may take place on days which are not U.S. business days. Changes in valuations on certain securities may occur at times or on days on which the Fund's net asset values ("NAV") are not calculated and on which the Fund does not affect sales and redemptions of its shares.

(b) Asset-Backed Securities

Asset-backed securities include pools of mortgages, loans, receivables or other assets. Payment of principal and interest may be largely dependent upon the cash flows generated by the assets backing the securities, and, in certain cases, supported by letters of credit, surety bonds, or other credit enhancements. The value of asset-backed securities may also be affected by the creditworthiness of the servicing agent for the pool, the originator of the loans or receivables, or the financial institution(s) providing the credit support. In addition, asset-backed securities are not backed by any governmental agency.

Collateralized Debt Obligations ("CDOs") include Collateralized Bond Obligations ("CBOs"), Collateralized Loan Obligations ("CLOs") and other similarly structured securities. CBOs and CLOs are types of asset backed securities. A CBO is a trust which is backed by a diversified pool of high risk, below investment grade fixed income securities. A CLO is a trust typically collateralized by a pool of loans, which may include, among others, domestic and foreign senior secured loans, senior unsecured loans, and subordinate corporate loans, including loans that may be rated below investment grade or equivalent unrated loans. The risks of an investment in a CDO depend largely on the type of the collateral securities and the class of the CDO in which a Fund invests. CDOs carry additional risks including, but not limited to, (i) the possibility that distributions from collateral securities will not be adequate to make interest or other payments, (ii) the collateral may decline in value or default, (iii) a Fund may invest in CDOs that are subordinate to other classes, and (iv) the complex structure of the security may not be fully understood at the time of investment and may produce disputes with the issuer or unexpected investment results.

(c) Short Sales

The Fund may sell securities short. Short sales are transactions under which the Fund sells a security it does not own in anticipation of a decline in the value of that security. To complete such a transaction, the Fund must borrow the security to make delivery to the buyer. The Fund then is obligated to replace the security borrowed by purchasing the security at market price at the time of replacement. The price at such time may be more or less than the price at which the security was sold by the Fund. When a security is sold short a decrease in the value of the security will be recognized as a gain and an increase in the value of the security will be recognized as a loss, which is potentially limitless. Until the security is replaced, the Fund is required to pay the lender amounts equal to dividend or interest that accrue during the period of the loan which is recorded as an expense. To borrow the security, the Fund also may be required to pay a premium or an interest fee, which are recorded as interest expense. Cash or securities are segregated for the broker to meet the necessary margin requirements. The Fund is subject to the risk that it may not always be able to close out a short position at a particular time or at an acceptable price.

(d) Investment Transactions, Investment Income and Expenses

Investment transactions are accounted for on the trade date. Realized gains and losses on investments are determined on the identified cost basis. Dividend income is recorded net of applicable withholding taxes on the ex-dividend date and interest income is recorded on an accrual basis. Withholding taxes on foreign dividends, if applicable, are paid (a portion of which may be reclaimable) or provided for in accordance with the applicable country's tax rules and rates and are disclosed in the Statement of Operations. Withholding tax reclaims are filed in certain countries to recover a portion of the amounts previously withheld. The Fund records a reclaim receivable based on a number of factors, including a jurisdiction's legal obligation to pay reclaims as well as payment history and market convention. Discounts or premiums on debt securities are accreted or amortized to interest income over the lives of the respective securities using the effective interest method. Expenses incurred by the Trust with respect to more than one Fund are allocated in proportion to the net assets of each Fund except where allocation of direct expenses to each Fund or an alternative allocation method can be more appropriately made.

(e) Federal Income Taxes

The Fund intends to comply with the requirements of Subchapter M of the Internal Revenue Code applicable to regulated investment companies and to distribute substantially all of its net investment income and any net realized gains to its shareholders. Therefore, no provision is made for federal income or excise taxes. Due to the timing of dividend distributions and the differences in accounting for income and realized gains and losses for financial statement and federal income tax purposes, the fiscal year in which amounts are distributed may differ from the year in which the income and realized gains and losses are recorded by the Fund.

FASB Accounting Standard Codification "Accounting for Uncertainty in Income Taxes", Topic 740 (ASC 740) requires an evaluation of tax positions taken (or expected to be taken) in the course of preparing a Fund's tax returns to determine whether these positions meet a "more-likely-than-not" standard that, based on the technical merits, have a more than fifty percent likelihood of being sustained by a taxing authority upon examination. A tax position that meets the "more-likely-than-not" recognition threshold is measured to determine the amount of benefit to recognize in the financial statements. The Fund recognizes interest and penalties, if any, related to unrecognized tax benefits as income tax expense in the Statement of Operations.

ASC 740 requires management of the Fund to analyze tax positions taken in the prior three open tax years, if any, and tax positions expected to be taken in the Fund's current tax year, as defined by the IRS statute of limitations for all major jurisdictions, including federal tax authorities and certain state tax authorities. For the six months ended June 30, 2017, the Fund did not have a liability for any unrecognized tax benefits. The Fund has no examination in progress and is not aware of any tax positions for which it is reasonably possible that the total amounts of unrecognized tax benefits will significantly change in the next twelve months.

(f) Distributions to Shareholders

The Fund will make dividend distributions of net investment income, if any, monthly and net capital gains distributions, if any, at least annually, typically in December. The Fund may make an additional payment of dividends or distributions if it deems it desirable at any other time during the year. Distributions to shareholders are recorded on the ex-dividend date. The amount and timing of distributions are determined in accordance with federal income tax regulations, which may differ from GAAP.

The character of distributions made during the year from net investment income or net realized gains may differ from the characterization for federal income tax purposes due to differences in the recognition of income, expense and gain (loss) items for financial statement and tax purposes.

(g) Use of Estimates

The presentation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and the reported amounts of income and expenses during the reporting period. Actual results could differ from those estimates.

Note 3 – Investment Advisory and Other Agreements

The Trust, on behalf of the Fund, entered into an Investment Advisory Agreement (the “Agreement”) with Liberty Street Advisors, Inc. (the “Advisor”). Under the terms of the Agreement, the Fund pays a monthly investment advisory fee to the Advisor at the annual rate of 1.25% of the Fund’s average daily net assets. The Advisor engages Braddock Financial, LLC (the “Sub-Advisor”) to manage the Fund and pays the Sub-Advisor from its advisory fees.

The Advisor has contractually agreed to waive its fees and/or pay for operating expenses of the Fund to ensure that total annual fund operating expenses (excluding, as applicable, taxes, leverage interest, brokerage commissions, acquired fund fees and expenses (as determined in accordance with Form N-1A), expenses incurred in connection with any merger or reorganization and extraordinary expenses such as litigation expenses) do not exceed 1.75%, 2.50% and 1.50% of the Fund’s average daily net assets for Class A, Class C, and Institutional Class shares, respectively. This agreement is in effect until April 30, 2018, and it may be terminated before that date only by the Trust’s Board of Trustees.

For the six months ended June 30, 2017, the Advisor waived a portion of its advisory fees totaling \$103,338. The Advisor may recover from the Fund fees and/or expenses previously waived and/or absorbed, if the Fund’s expense ratio, including the recovered expenses, falls below the expense limit at which they were waived. The Fund’s advisor is permitted to seek reimbursement from the Fund, subject to certain limitations, of fees waived or payments made to the Fund for a period ending three full fiscal years after the date of the waiver or payment. This reimbursement may be requested from the Fund if the reimbursement will not cause the Fund’s annual expense ratio to exceed the lesser of (a) the expense limitation amount in effect at the time such fees were waived or payments made, or (b) the expense limitation amount in effect at the time of the reimbursement. At June 30, 2017, the amount of these potentially recoverable expenses was \$356,228. The Advisor may recapture all or a portion of this amount no later than December 31 of the years stated below:

| | |
|-------|----------------|
| 2019 | 252,890 |
| 2020 | <u>103,338</u> |
| Total | \$ 356,228 |

Foreside Fund Services, LLC (“Distributor”) serves as the Fund’s distributor; UMB Fund Services, Inc. (“UMBFS”) serves as the Fund’s fund accountant, transfer agent and co-administrator; and Mutual Fund Administration, LLC (“MFAC”) serves as the Fund’s other co-administrator. UMB Bank, n.a., an affiliate of UMBFS, serves as the Fund’s custodian.

Certain trustees and officers of the Trust are employees of UMBFS or MFAC. The Fund does not compensate trustees and officers affiliated with the Fund’s co-administrators. For the six months ended June 30, 2017, the Fund’s allocated fees incurred to Trustees who are not affiliated with the Fund’s co-administrators are reported on the Statement of Operations.

Dziura Compliance Consulting, LLC provides Chief Compliance Officer (“CCO”) services to the Trust. The Fund’s allocated fees incurred for CCO services for the six months ended June 30, 2017, are reported on the Statement of Operations.

Note 4 – Federal Income Taxes

At June 30, 2017, gross unrealized appreciation and depreciation on investments owned by the Fund, based on cost for federal income tax purposes were as follows:

| | | |
|--|----|-------------------------|
| Cost of investments | \$ | <u>93,190,445</u> |
| Gross unrealized appreciation | \$ | 5,700,499 |
| Gross unrealized depreciation | | <u>(1,818,329)</u> |
| Net unrealized appreciation on investments | \$ | <u><u>3,882,170</u></u> |

As of December 31, 2016, the components of accumulated earnings (deficit) on a tax basis were as follows:

| | | |
|--|----|-------------------------|
| Undistributed ordinary income | \$ | 13,673 |
| Undistributed long-term capital gains | | <u>-</u> |
| Tax accumulated earnings | | <u>13,673</u> |
| Accumulated capital and other losses | | (662,556) |
| Unrealized appreciation on investments | | 3,307,983 |
| Unrealized depreciation on written options | | <u>(7,963)</u> |
| Total accumulated earnings | \$ | <u><u>2,651,137</u></u> |

The tax character of the distribution paid during the fiscal year ended December 31, 2016, were as follows:

| | | |
|-----------------------------|----|-------------------------|
| Distributions paid from: | | <u>2016</u> |
| Ordinary income | \$ | 3,049,219 |
| Net long-term capital gains | | <u>-</u> |
| Total distributions paid | \$ | <u><u>3,049,219</u></u> |

At December 31, 2016, the Fund had a long-term capital loss carryover of \$662,556 which doesn't expire. To the extent that a fund may realize future net capital gains, those gains will be offset by any of its unused capital loss carryforward. Future capital loss carryover utilization in any given year may be subject to Internal Revenue Code limitations.

Note 5 – Investment Transactions

For the six months ended June 30, 2017, purchases and sales of investments, excluding short-term investments, were as follows:

| | | | | |
|----|------------|---------------|-------------------------|------------------------|
| | | | Proceed from Securities | |
| | Purchases | Sales | Sold Short | Cover Short Securities |
| \$ | 43,109,215 | \$ 17,046,446 | \$ 199,822 | \$ 208,436 |

Note 6 – Distribution Plan

The Trust, on behalf of the Fund, has adopted a Distribution Plan (the "Plan") pursuant to Rule 12b-1 under the 1940 Act, that allows the Fund to pay distribution fees for the sale and distribution of its Class A and Class C shares. For Class A shares, the maximum annual fee payable to the Distributor for such distribution and/or shareholder liaison services is 0.25% of the average daily net assets of such shares. For Class C shares, the maximum annual

fees payable to the Distributor for distribution services and shareholder liaison services are 0.75% and 0.25%, respectively, of the average daily net assets of such shares.

The Advisor's affiliated broker-dealer, HRC Fund Associates, LLC ("HRC"), Member FINRA/SIPC, markets the Fund shares to financial intermediaries pursuant to a marketing agreement with the Advisor. In addition, HRC may receive sales charges from the Fund's Distributor for activities relating to the marketing of Fund shares pursuant to a wholesaling agreement with the Fund's Distributor. During the six months ended June 30, 2017, HRC did not receive any sales charges or distribution fees with respect to the Fund pursuant to the wholesaling agreement.

For the six months ended June 30, 2017, distribution fees incurred are disclosed on the Statement of Operations.

Note 7 – Shareholder Servicing Plan

The Trust, on behalf of the Fund, has adopted a Shareholder Servicing Plan to pay a fee at an annual rate of up to 0.15% of the Fund's average daily net assets of its shares serviced by shareholder servicing agents who provide administrative and support services to their customers.

For the six months ended June 30, 2017, shareholder servicing fees incurred are disclosed on the Statement of Operations.

Note 8 – Indemnifications

In the normal course of business, the Fund enters into contracts that contain a variety of representations which provide general indemnifications. The Fund's maximum exposure under these arrangements is unknown, as this would involve future claims that may be made against the Fund's that have not yet occurred. However, the Fund expects the risk of loss to be remote.

Note 9 – Fair Value Measurements and Disclosure

FASB Accounting Standard Codification, "Fair Value Measurements and Disclosures", Topic 820 (ASC 820) defines fair value, establishes a framework for measuring fair value in accordance with GAAP, and expands disclosure about fair value measurements. It also provides guidance on determining when there has been a significant decrease in the volume and level of activity for an asset or a liability, when a transaction is not orderly, and how that information must be incorporated into a fair value measurement.

Under ASC 820, various inputs are used in determining the value of the Fund's investments. These inputs are summarized into three broad Levels as described below:

- Level 1 – Unadjusted quoted prices in active markets for identical assets or liabilities that the Fund has the ability to access.
- Level 2 – Observable inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly or indirectly. These inputs may include quoted prices for the identical instrument on an inactive market, prices for similar instruments, interest rates, prepayment speeds, credit risk, yield curves, default rates and similar data.
- Level 3 – Unobservable inputs for the asset or liability, to the extent relevant observable inputs are not available, representing the Fund's own assumptions about the assumptions a market participant would use in valuing the asset or liability, and would be based on the best information available.

Braddock Multi-Strategy Income Fund
NOTES TO FINANCIAL STATEMENTS – Continued
June 30, 2017 (Unaudited)

The availability of observable inputs can vary from security to security and is affected by a wide variety of factors, including for example, the type of security, whether the security is new and not yet established in the marketplace, the liquidity of markets, and other characteristics particular to the security. To the extent that valuation is based on models or inputs that are less observable or unobservable in the market, the determination of fair value requires more judgment. Accordingly the degree of judgment exercised in determining fair value is greatest for instruments categorized in Level 3.

The inputs to measure fair value may fall into different Levels of the fair value hierarchy. In such cases, for disclosure purposes, the Level in the fair value hierarchy within which the fair value measurement falls in its entirety, is determined based on the lowest Level input that is significant to the fair value measurement in its entirety.

The inputs or methodology used for valuing securities are not an indication of the risk associated with investing in those securities. The following is a summary of the inputs used, as of June 30, 2017, in valuing the Fund's assets and liabilities carried at fair value:

| | Level 1 | Level 2 | Level 3* | Total |
|-------------------------------------|---------------------|----------------------|-------------------|----------------------|
| Assets | | | | |
| Investments | | | | |
| Asset-Backed Securities | \$ - | \$ 57,338,980 | \$ 986,250 | \$ 58,325,230 |
| Collateralized Mortgage Obligations | - | 34,511,944 | - | 34,511,944 |
| Short-Term Investments | 4,235,441 | - | - | 4,235,441 |
| Total Assets | \$ 4,235,441 | \$ 91,850,924 | \$ 986,250 | \$ 97,072,615 |
| Liabilities | | | | |
| Securities Sold Short | | | | |
| Exchange-Traded Funds | \$ 202,444 | \$ - | \$ - | \$ 202,444 |
| Total Liabilities | \$ 202,444 | \$ - | \$ - | \$ 202,444 |

*The Fund held a Level 3 security valued at zero at period end.

Transfers between Levels 1, 2, or 3 are recognized at the end of the reporting period.

Following is a reconciliation of assets in which significant unobservable inputs (Level 3) were used in determining value:

| | |

| Principal paydown | - |
| Balance as of June 30, 2017 | <u>\$ 986,250</u> |

The following table presents additional information about valuation methodologies and inputs used for investments that are measured at fair value and categorized within Level 3 as of June 30, 2017:

| Fair Value June 30, 2017 | Valuation Methodologies | Unobservable Input ⁽¹⁾ | Input Range/Value | Impact to Valuation from an increase in Input ⁽²⁾ |
|--------------------------------|----------------------------|---|----------------------|--|
| \$ 986,250 | Fair Value Pricing | Adjusted by management to reflect current conditions | - | Increase |

⁽¹⁾ The investment advisor considers relevant indications of value that are reasonably and timely available to it in determining the fair value to be assigned to a particular security, such as the type and cost of the security; contractual or legal restrictions on resale of the security; relevant financial or business developments of the issuer; actively traded related securities; conversion or exchange rights on the security; related corporate actions; significant events occurring after the close of trading in the security; and changes in overall market conditions. The Fund's use of fair value pricing may cause the net asset value of Fund shares to differ from the net asset value that would be calculated using market quotations. Fair value pricing involves subjective judgments and it is possible that the fair value determined for a security may be materially different than the value that could be realized upon the sale of that security.

⁽²⁾ This column represents the directional change in the fair value of the Level 3 investments that would result from an increase to the corresponding unobservable input. A decrease to the unobservable input would have the opposite effect.

Note 10 – Recently Issued Accounting Pronouncements

In October 2016, the U.S. Securities and Exchange Commission adopted new rules and amended existing rules (together, "final rules") intended to modernize the reporting and disclosure of information by registered investment companies. In part, the final rules amend Regulation S-X and require standardized, enhanced disclosure about derivatives in investment company financial statements, as well as other amendments. The compliance date for the amendments to Regulation S-X is August 1, 2017. Management is currently evaluating the impact that the adoption of the amendments to Regulation S-X will have on the financial statements and related disclosures.

Note 11 – Callable Bond Proceeds

On June 26, 2017, Wells Fargo Bank, N.A. (Wells Fargo), the trustee for Banc of America Alternative Loan Trust, Series 2004-7, Class 15B1 (CUSIP 05949AMR8) issued a call notice that funds received from this security will be withheld to establish a reserve account to meet its current and future expenses for litigation costs and potential judgements resulting from claims against Wells Fargo. Wells Fargo stated in its letter to certificate holders that this amount will be held for an unknown amount of time and any unused funds in reserve will be paid to certificate holders when Wells Fargo determines that such funds are no longer necessary to be held. The Fund expects payment to be received within the next three years and the estimated proceeds to be received from the callable bond is reported on the Statement of Assets and Liabilities.

Note 12 – Events Subsequent to the Fiscal Period End

The Fund has adopted financial reporting rules regarding subsequent events which require an entity to recognize in the financial statements the effects of all subsequent events that provide additional evidence about conditions

that existed at the date of the balance sheet. Management has evaluated the Fund's related events and transactions that occurred through the date of issuance of the Fund's financial statements. There were no events or transactions that occurred during this period that materially impacted the amounts or disclosures in the Fund's financial statements.

Board Consideration of Investment Advisory Agreement and Sub-Advisory Agreement

At an in-person meeting held on June 13-15, 2017, the Board of Trustees (the “*Board*”) of Investment Managers Series Trust (the “*Trust*”), including the trustees who are not “interested persons” of the Trust (the “*Independent Trustees*”) as defined in the Investment Company Act of 1940, as amended (the “*1940 Act*”), reviewed and unanimously approved the renewal of the Investment Advisory Agreement (the “*Advisory Agreement*”) between the Trust and Liberty Street Advisors, Inc. (the “*Investment Advisor*”) and the Sub-Advisory Agreement (the “*Sub-Advisory Agreement*”) between the Investment Advisor and Braddock Financial LLC (the “*Sub-Advisor*”) with respect to the Braddock Multi-Strategy Income Fund series of the Trust (the “*Fund*”) for additional one-year terms from when they otherwise would expire. The Advisory Agreement and the Sub-Advisory Agreement are referred to below as the “*Fund Advisory Agreements*.” In approving renewal of each Fund Advisory Agreement, the Board, including the Independent Trustees, determined that such renewal was in the best interests of the Fund and its shareholders.

Background

In advance of the meeting, the Board received information about the Fund and the Fund Advisory Agreements from the Investment Advisor, the Sub-Advisor, and Mutual Fund Administration, LLC and UMB Fund Services, Inc., the Trust’s co-administrators, certain portions of which are discussed below. The materials, among other things, included information about the organization and financial condition of the Investment Advisor and the Sub-Advisor; information regarding the background and experience of relevant personnel providing services to the Fund; reports comparing the performance of the Fund with returns of the Bloomberg Barclays U.S. Aggregate Bond Index, the Bank of America Merrill Lynch U.S. Cash Pay High Yield Index, and a group of comparable funds selected by Morningstar, Inc. (the “*Peer Group*”) from its Multisector Bond fund universe (the “*Fund Universe*”) for the one-, three-, and five-year periods ended March 31, 2017; and reports comparing the investment advisory fee and total expenses of the Fund with those of the Peer Group and Fund Universe. The Board also received a memorandum from legal counsel to the Trust discussing the legal standards under the 1940 Act and other applicable law for their consideration of the proposed renewal of the Fund Advisory Agreements. In addition, the Board considered information reviewed by the Board during the year at other Board and Board committee meetings. No representatives of the Investment Advisor or Sub-Advisor were present during the Board’s consideration of the Fund Advisory Agreements, and the Independent Trustees were represented by their legal counsel with respect to the matters considered.

In approving renewal of each Fund Advisory Agreement, the Board and the Independent Trustees considered a variety of factors, including those discussed below. In their deliberations, the Board and the Independent Trustees did not identify any particular factor that was controlling, and each Trustee may have attributed different weights to the various factors.

Liberty Street Advisors, Inc.

Nature, Extent and Quality of Services

With respect to the performance results of the Fund, the meeting materials indicated that the Fund’s annualized total returns for the three- and five-year periods were above the median returns of the Peer Group and Multisector Bond Fund Universe, and above the returns of the Bloomberg Barclays U.S. Aggregate Bond Index (the “*Bloomberg Barclays Index*”) and the Bank of America Merrill Lynch U.S. Cash Pay High Yield Index (the “*BofA ML Index*”). The Fund’s total return for the one-year period was above the return of the Bloomberg Barclays Index and the median return of the Fund Universe, but slightly below the Peer Group median return by 0.10%, and below the BofA ML Index return by 8.03%. The Trustees considered the Investment Advisor’s observation that for the one-year period, the four funds in the Peer Group that outperformed the Fund generally have a higher exposure to collateralized loan obligations and lower quality paper than the Fund and that those asset types generally

Braddock Multi-Strategy Income Fund

SUPPLEMENTAL INFORMATION (Unaudited) - Continued

outperformed the broader fixed income and non-agency residential mortgage-backed securities markets subsequent to the U.S. Presidential election.

The Board noted its familiarity with the Investment Advisor and considered the overall quality of services provided by the Investment Advisor to the Fund. In doing so, the Board considered the Investment Advisor's specific responsibilities in day-to-day management and oversight of the Fund, as well as the qualifications, experience, and responsibilities of the personnel involved in the activities of the Fund. The Board also considered the overall quality of the Investment Advisor's organization and operations, and the Investment Advisor's compliance structure. In addition, the Board considered the respective roles of the Investment Advisor and the Sub-Advisor, noting that the Investment Advisor provides overall supervision of the general investment management and investment operations of the Fund and oversees the Sub-Advisor with respect to the Fund's operations, including monitoring the investment and trading activities of the Sub-Advisor, and monitoring the Fund's compliance with its investment policies; and that the Sub-Advisor's responsibilities include day-to-day portfolio management. The Board and the Independent Trustees concluded that based on the various factors they had reviewed, the nature, overall quality, and extent of the management and oversight services provided by the Investment Advisor to the Fund were satisfactory.

Advisory Fee and Expense Ratio

With respect to the advisory fee paid by the Fund, the meeting materials indicated that the annual investment advisory fee (gross of fee waivers) was the same as the Peer Group median, and higher than the Fund Universe median by 0.69%. The Trustees considered the Investment Advisor's belief that the Fund Universe includes a broad range of funds which have different investment strategies and invest in different securities than the Fund, and that the Peer Group provides a more appropriate basis of comparison for the Fund. The Trustees noted that the Investment Advisor does not manage any other mutual funds, pension funds, or institutional separate accounts using the same objectives and policies as the Fund, and therefore they did not have a good basis for comparing the Fund's advisory fee with those of other similar accounts of the Investment Advisor. The Trustees also noted that the Fund's advisory fee was within the range of advisory fees paid by other series of the Trust managed by the Investment Advisor.

The meeting materials indicated that the annual total expenses paid by the Fund (net of fee waivers) for the Fund's most recent fiscal year were higher than the Peer Group and Fund Universe medians by 0.18% and 0.79%, respectively. The Trustees noted, however, that the average net assets of funds in the Peer Group and Fund Universe were significantly larger than the average net assets of the Fund.

The Board and the Independent Trustees concluded that based on the factors they had reviewed, the compensation payable to the Investment Advisor under the Advisory Agreement was fair and reasonable in light of the nature and quality of the services the Investment Advisor provides to the Fund.

Profitability and Economies of Scale

The Board next considered information prepared by the Investment Advisor relating to its costs and profits with respect to the Fund for the year ended March 31, 2017, noting that the Investment Advisor had waived a significant portion of its advisory fee for the Fund, and determined that the Investment Advisor's profit level was reasonable. The Board also considered the benefits received by the Investment Advisor and its affiliates as a result of the Investment Advisor's relationship with the Fund (other than the receipt of its investment advisory fee), including benefits received by its affiliated broker-dealer in connection with the marketing of Fund shares, the beneficial effects from the review by the Trust's Chief Compliance Officer of the Investment Advisor's compliance program, and the intangible benefits of its association with the Fund generally and any favorable publicity arising in connection with the Fund's performance. The Trustees noted that although there were no advisory fee

SUPPLEMENTAL INFORMATION (Unaudited) - Continued

breakpoints, the asset level of the Fund was not currently likely to lead to significant economies of scale, and that any such economies would be considered in the future as the assets of the Fund grow.

Braddock Financial LLC

Nature, Extent and Quality of Services

The Board considered the overall quality of services provided by the Sub-Advisor to the Fund. In doing so, the Board considered the Sub-Advisor's specific responsibilities in day-to-day portfolio management of the Fund, as well as the qualifications, experience, and responsibilities of the personnel involved in the activities of the Fund. The Board also considered the overall quality of the Sub-Advisor's organization and operations, and its compliance structure. The Board's observations regarding the performance of the Fund are described above. The Board and the Independent Trustees concluded that based on the various factors they had reviewed, the nature, overall quality, and extent of the management services provided by the Sub-Advisor to the Fund were satisfactory.

Sub-Advisory Fee

The Board reviewed information regarding the sub-advisory fee charged by the Sub-Advisor with respect to the Fund. In doing so, the Board considered the relative levels and types of services provided by the Investment Advisor and the Sub-Advisor, noting that the Investment Advisor supervises and monitors the investment and trading activities of the Sub-Advisor, analyzes the Fund's investment operations, and provides general administrative services related to the overall supervision of the Fund. The Trustees noted that the sub-advisory fee charged by the Sub-Advisor with respect to the Fund was significantly lower than the advisory fee that the Sub-Advisor charges to a private fund, which includes both asset-based and performance-based fees, and higher than the fee charged by the Sub-Advisor to serve as sub-advisor to a different private fund. The Board considered the Sub-Advisor's assertion that while both private funds invest in structured finance assets, they both have different strategies than the Fund. The Board noted that the Investment Advisor pays the Sub-Advisor's sub-advisory fee out of the Investment Advisor's advisory fee.

The Board and the Independent Trustees concluded that based on the factors they had reviewed, the compensation payable to the Sub-Advisor under the Sub-Advisory Agreement was fair and reasonable in light of the services provided by the Sub-Advisor to the Fund.

Benefits to the Sub-Advisor

The Board considered the benefits received by the Sub-Advisor as a result of its relationship with the Fund (other than the receipt of its sub-advisory fee), including the beneficial effects from the review by the Trust's Chief Compliance Officer of the Sub-Advisor's compliance program, and the intangible benefits of the Sub-Advisor's association with the Fund generally and any favorable publicity arising in connection with the Fund's performance.

Conclusion

Based on these and other factors, the Board and the Independent Trustees concluded that renewal of each Fund Advisory Agreement was in the best interests of the Fund and its shareholders and, accordingly, approved the renewal of each Fund Advisory Agreement with respect to the Fund.

EXPENSE EXAMPLE
For the Six Months Ended June 30, 2017 (Unaudited)

Expense Example

As a shareholder of the Fund, you incur two types of costs: (1) transaction costs, including sales charges (loads) on purchase of Class A shares; and (2) ongoing costs, including management fees; distribution and 12b-1 fees (Class A and Class C shares only) and other Fund expenses. The examples below are intended to help you understand your ongoing costs (in dollars) of investing in the Funds and to compare these costs with the ongoing costs of investing in other mutual funds.

These examples are based on an investment of \$1,000 invested at the beginning of the period and held for the entire six month period from January 1, 2017 to June 30, 2017.

Actual Expenses

The information in the row titled “Actual Performance” of the table below provides actual account values and actual expenses. You may use the information in these columns, together with the amount you invested, to estimate the expenses that you paid over the period. Simply divide your account value by \$1,000 (for example, an \$8,600 account value divided by \$1,000 = 8.6), then multiply the result by the number in the appropriate row for your share class, under the column titled “Expenses Paid During Period” to estimate the expenses you paid on your account during this period.

Hypothetical Example for Comparison Purposes

The information in the row titled “Hypothetical (5% annual return before expenses)” of the table below provides hypothetical account values and hypothetical expenses based on the Fund’s actual expense ratios and an assumed rate of return of 5% per year before expenses, which is not the Fund’s actual return. The hypothetical account values and expenses may not be used to estimate the actual ending account balance or expenses you paid for the period. You may use this information to compare the ongoing costs of investing in the Fund and other funds. To do so, compare these 5% hypothetical examples with the 5% hypothetical examples that appear in the shareholder reports of the other funds.

Please note that the expenses shown in the table are meant to highlight your ongoing costs only and do not reflect any transaction costs, such as sales charges (load) or contingent deferred sales charges. Therefore, the information in the row titled “Hypothetical (5% annual return before expenses)” is useful in comparing ongoing costs only, and will not help you determine the relative total costs of owning different funds. In addition, if these transactional costs were included, your costs would have been higher.

| | | Beginning Account Value | Ending Account Value | Expenses Paid During Period* |
|---------------------|---|-------------------------|----------------------|------------------------------|
| | | 1/1/17 | 6/30/17 | 1/1/17 – 6/30/17 |
| Class A | Actual Performance | \$ 1,000.00 | \$ 1,043.20 | \$ 8.88 |
| | Hypothetical (5% annual return before expenses) | 1,000.00 | 1,016.11 | 8.76 |
| Class C | Actual Performance | 1,000.00 | 1,040.00 | 12.65 |
| | Hypothetical (5% annual return before expenses) | 1,000.00 | 1,012.39 | 12.48 |
| Institutional Class | Actual Performance | 1,000.00 | 1,045.50 | 7.62 |
| | Hypothetical (5% annual return before expenses) | 1,000.00 | 1,017.35 | 7.51 |

* Expenses are equal to the Fund’s annualized expense ratios of 1.75%, 2.50% and 1.50% for Class A, Class C and Institutional Class shares, respectively, multiplied by the average account values over the period, multiplied by 181/365 (to reflect the six month period). The expense ratios reflect an expense waiver. Assumes all dividends and distributions were reinvested.
