

## 2023 Year-End Capital Gains Estimates

Preliminary capital gains distribution estimates are based on each Fund's portfolio at a point in time and are subject to change prior to each Fund's actual distribution. Actual distributions will be based on net capital gains and losses realized by each Fund, and may be substantially different.

Net investment income distributions, if any, may vary among share classes.

Estimates do not include ordinary income distributions that a Fund may be making, although net short-term capital gain distributions are generally taxable as ordinary income and are reported as Ordinary Dividends on Form 1099-DIV.

**This preliminary information is not final. Tax returns should not be prepared based on this information. Shareholders should contact their tax advisors for information regarding the federal and state income taxation of capital gain distributions on their personal tax situations.**

Based on information as of October 31, 2023, the following Liberty Street Funds are projected to make capital gain distributions as indicated below in December, 2023.
