Portfolio turnover rate	48%	105%	255%	270%	185%

¹ Based on average shares outstanding for the period.

² Recognition of the net investment income by the Fund is affected by the timing of the declaration of dividends by the underlying investment companies in which the Fund invests. The ratio does not include net investment income of the investment companies in which the Fund invests.

³ Amount represents less than \$0.01 per share.

⁴ Total returns would have been lower/higher had expenses not been waived or absorbed/recovered by the Advisor. Returns shown do not reflect the deduction of taxes that a shareholder would pay on Fund distributions or the redemption of Fund shares. Returns shown do not include payment of sales load of 3.75% of offering price which is reduced on sales of \$100,000 or more and no initial sales charge is applied to purchases of \$500,000 or more. Returns shown do not include payment of a Contingent Deferred Sales Charge ("CDSC") of 1.00% on certain purchases of \$500,000 or more that are redeemed in whole or in part within 18 months of purchase. If these sales charges were included total returns would be lower.

⁵ The Advisor reimbursed the Tax Advantaged Income Fund \$658 for losses from a trade error. This reimbursement had no impact to the total return.

⁶ Does not include expenses of the investment companies in which the Fund invests.

⁷ If interest expense and commitment fees had been excluded, the expense ratios would have been lowered by 0.02% for the year ended December 31, 2024. For the prior years ended December 31, 2023, 2022, 2021, and 2020, the ratios would have been lowered by 0.01%, 0.02%, 0.01%, and 0.04%, respectively.

⁸ Effective March 15, 2018 the Fund's advisor has voluntarily agreed to waive its fees and/or pay for operating expenses of the Fund to ensure that the total annual fund operating expenses (excluding, as applicable, any taxes, leverage interest, brokerage commissions, dividend and interest expenses on short sales, acquired fund fees and expenses (as determined in accordance with Form N-1A), expenses incurred in connection with any merger or reorganization, or extraordinary expenses such as litigation expenses) do not exceed 1.50% of the average daily net assets until April 30, 2022. Prior to March 15, 2018, the annual fund operating expense limitation was 1.60%. The voluntary waiver was terminated effective May 1, 2022, and the expense limitation is 1.60%.

¹ Based on average shares outstanding for the period.

² Recognition of the net investment income by the Fund is affected by the timing of the declaration of dividends by the underlying investment companies in which the Fund invests. The ratio does not include net investment income of the investment companies in which the Fund invests.

³ Amount represents less than \$0.01 per share.

⁴ Total returns would have been lower/higher had expenses not been waived or absorbed/recovered by the Advisor. Returns shown do not reflect the deduction of taxes that a shareholder would pay on Fund distributions or the redemption of Fund shares.

⁵ The Advisor reimbursed the Tax Advantaged Income Fund \$658 for losses from a trade error. This reimbursement had no impact to the total return.

⁶ Does not include expenses of the investment companies in which the Fund invests.

⁷ If interest expense and commitment fees had been excluded, the expense ratios would have been lowered by 0.02% for the year ended December 31, 2024. For the prior years ended December 31, 2023, 2022, 2021, and 2020, the ratios would have been lowered by 0.01%, 0.02%, 0.01%, and 0.04%, respectively.

⁸ Effective March 15, 2018 the Fund's advisor has voluntarily agreed to waive its fees and/or pay for operating expenses of the Fund to ensure that the total annual fund operating expenses (excluding, as applicable, any taxes, leverage interest, brokerage commissions, dividend and interest expenses on short sales, acquired fund fees and expenses (as determined in accordance with Form N-1A), expenses incurred in connection with any merger or reorganization, or extraordinary expenses such as litigation expenses) do not exceed 1.25% of the average daily net assets until April 30, 2022. Prior to March 15, 2018, the Fund's advisor had contractually agreed to waive its fees and/or pay for operating expenses of the Fund to ensure that the total annual fund operating expenses (excluding taxes, leverage interest, brokerage commissions, acquired fund fees and expenses as determined in accordance with Form N-1A, expenses incurred in connection with any merger or reorganization, or extraordinary expenses such as litigation) do not exceed 1.35% of average daily net assets of the Fund. The voluntary waiver was terminated effective May 1, 2022, and the expense limitation is 1.35%.

³ Total returns would have been lower/higher had expenses not been waived or absorbed/recovered by the Advisor. Returns shown do not reflect the deduction of taxes that a shareholder would pay on Fund distributions or the redemption of Fund shares.

⁴ Does not include expenses of the investment companies in which the Fund invests.

⁵ If interest expense and commitment fees had been excluded, the expense ratios would have been lowered by 0.01% for the year ended December 31, 2024. For the prior years ended December 31, 2023, 2022, 2021, and 2020, the ratios would have been lowered by 0.01%, 0.03%, 0.02%, and 0.03%, respectively.

Note 1 – Organization

Robinson Tax Advantaged Income Fund (“Tax Advantaged Income” or “Tax Advantaged Income Fund”) and Robinson Opportunistic Income Fund (“Opportunistic Income” or “Opportunistic Income Fund”) (collectively referred to as the “Funds”) are organized as diversified series of Investment Managers Series Trust, a Delaware statutory trust (the “Trust”) which is registered as an open-end management investment company under the Investment Company Act of 1940, as amended (the “1940 Act”).

The Tax Advantaged Income Fund seeks total return with an emphasis on providing current income, a substantial portion of which will be exempt from federal income taxes. The Fund commenced investment operations on September 30, 2014. The Fund currently offers four classes of shares: A shares, C shares, T shares and Institutional shares. Class T shares are not currently available for purchase.

The Opportunistic Income Fund seeks total return with an emphasis on providing current income. The Fund commenced operations on December 31, 2015, prior to which its only activity was the receipt of a \$10,000 investment from principals of the Fund’s advisor and a \$36,879,274 transfer of shares of the Fund in exchange for the net assets of the Robinson Income and Principal Preservation Fund I, LP, a Delaware limited partnership (the “Company”). This exchange was nontaxable, whereby the Fund’s Institutional Class issued 3,687,927 shares for the net assets of the Company on December 31, 2015. Assets with a fair market value of \$36,879,274 consisting of cash, interest receivable and securities of the Company with a fair value of \$33,516,116 (identified costs of investments transferred were \$35,067,906) and cash were the primary assets received by the Fund on January 1, 2016. For financial reporting purposes, assets received and shares issued by the Fund were recorded at fair value; however, the cost basis of the investments received from the Partnership was carried forward to align ongoing reporting of the Fund’s realized and unrealized gains and losses with amount distributable to shareholders for tax purposes. The Fund currently offers four classes of shares: A shares, C shares, T shares and Institutional shares. Class T shares are not currently available for purchase.

The shares of each class represent an interest in the same portfolio of investments of the Funds and have equal rights as to voting, redemptions, dividends, liquidation, income and expenses, except class specific expenses, subject to the approval of the Trustees. Income, expenses (other than expenses attributable to a specific class) and realized and unrealized gains and losses on investments are allocated to each class of shares in proportion to their relative net assets. Shareholders of a class that bears distribution and service expenses under the terms of a distribution plan have exclusive voting rights to that distribution plan.

Each Fund is an investment company and accordingly follows the investment company accounting and reporting guidance of the Financial Accounting Standards Board (FASB) Accounting Standard Codification, “Financial Services – Investment Companies”, Topic 946 (ASC 946).

Each Fund is deemed to be an individual reporting segment and is not part of a consolidated reporting entity. The objective and strategy of each Fund is used by the Advisor to make investment decisions, and the results of the operations, as shown on the Statements of Operations and the financial highlights for each Fund is the information utilized for the day-to-day management of the Funds. Each Fund is party to the expense agreements as disclosed in the Notes to the Financial Statements and there are no resources allocated to a Fund based on performance measurements. The Advisor is deemed to be the Chief Operating Decision Maker with respect to the Funds’ investment decisions.

Note 2 – Accounting Policies

The following is a summary of the significant accounting policies consistently followed by the Funds in the preparation of their financial statements. The preparation of financial statements in conformity with accounting

Robinson Funds
NOTES TO FINANCIAL STATEMENTS - Continued
December 31, 2024

principles generally accepted in the United States of America (“GAAP”) requires management to make estimates and assumptions that affect the reported amounts and disclosures in the financial statements. Actual results could differ from these estimates.

(a) Valuation of Investments

The Funds value equity securities at the last reported sale price on the principal exchange or in the principal over the counter (“OTC”) market in which such securities are traded, as of the close of regular trading on the NYSE on the day the securities are being valued or, if the last-quoted sales price is not readily available, the securities will be valued at the last bid or the mean between the last available bid and ask price. Securities traded on the NASDAQ are valued at the NASDAQ Official Closing Price (“NOCP”). Investments in open-end investment companies are valued at the daily closing net asset value of the respective investment company. Debt securities are valued by utilizing a price supplied by independent pricing service providers. The independent pricing service providers may use various valuation methodologies including matrix pricing and other analytical pricing models as well as market transactions and dealer quotations. These models generally consider such factors as yields or prices of bonds of comparable quality, type of issue, coupon, maturity, ratings and general market conditions. If a price is not readily available for a portfolio security, the security will be valued at fair value (the amount which the Fund might reasonably expect to receive for the security upon its current sale). The Board of Trustees has designated the Advisor as the Fund’s valuation designee (the “Valuation Designee”) to make all fair value determinations with respect to the Fund’s portfolio investments, subject to the Board’s oversight. As the Valuation Designee, the Advisor has adopted and implemented policies and procedures to be followed when the Fund must utilize fair value pricing.

Trading in securities on many foreign securities exchanges and OTC markets is normally completed before the close of business on each U.S. business day. In addition, securities trading in a particular country or countries may not take place on all U.S. business days or may take place on days which are not U.S. business days. Changes in valuations on certain securities may occur at times or on days on which the Fund’s net asset values (“NAV”) are not calculated and on which the Fund does not effect sales and redemptions of its shares.

(b) Investment Transactions, Investment Income and Expenses

Investment transactions are accounted for on the trade date. Realized gains and losses on investments are determined on the identified cost basis. Dividend income is recorded net of applicable withholding taxes on the ex-dividend date and interest income is recorded on an accrual basis. Withholding taxes on foreign dividends, if applicable, are paid (a portion of which may be reclaimable) or provided for in accordance with the applicable country’s tax rules and rates and are disclosed in the Statement of Operations. Withholding tax reclaims are filed in certain countries to recover a portion of the amounts previously withheld. The Funds record a reclaim receivable based on a number of factors, including a jurisdiction’s legal obligation to pay reclaims as well as payment history and market convention. Discounts on debt securities are accreted or amortized to interest income over the lives of the respective securities using the effective interest method. Premiums for callable debt securities are amortized to the earliest call date, if the call price was less than the purchase price. If the call price was not at par and the security was not called, the security is amortized to the next call price and date. Income and expenses of the Funds are allocated on a pro rata basis to each class of shares relative net assets, except for distribution and service fees which are unique to each class of shares. Expenses incurred by the Trust with respect to more than one Fund are allocated in proportion to the net assets of each Fund except where allocation of direct expenses to each Fund or an alternative allocation method can be more appropriately made.

(c) Closed-End Funds

The Funds invest in shares of closed-end funds (“CEFs”). Investments in closed-end funds are subject to various risks, including reliance on management’s ability to meet the closed-end fund’s investment objective and to manage the closed-end fund portfolio; fluctuation in the net asset value of closed-end fund shares compared to the changes in

Robinson Funds
NOTES TO FINANCIAL STATEMENTS - Continued
December 31, 2024

the value of the underlying securities that the closed-end fund owns; and bearing a pro rata share of the management fees and expenses of each underlying closed-end fund resulting in Fund's shareholders being subject to higher expenses than if he or she invested directly in the closed-end fund(s). The closed-end funds in which the Funds will invest may be leveraged. As a result, the Funds may be exposed indirectly to leverage through investment in a closed-end fund. An investment in securities of a closed-end fund that uses leverage may expose the Fund to higher volatility in the market value of such securities and the possibility that the Fund's long-term returns on such securities (and, indirectly, the long-term returns of the shares) will be diminished.

(d) Municipal Bonds Risk

The underlying closed-end funds, in which the Tax Advantaged Fund invests in, primarily invest in municipal bonds. Litigation, legislation or other political events, local business or economic conditions or the bankruptcy of the issuer could have a significant effect on the ability of an issuer of municipal bonds to make payments of principal and/or interest. Political changes and uncertainties in the municipal market related to taxation, legislative changes or the rights of municipal security holders can significantly affect municipal bonds. If the Internal Revenue Service (the "IRS") determines that an issuer of a municipal security has not complied with applicable tax requirements, interest from the security could become taxable and the security could significantly decline in value.

(e) Futures Contracts

The Funds may enter into futures contracts (including contracts relating to foreign currencies, interest rates, commodities securities and other financial indexes and other commodities), and purchase and write (sell) related options traded on exchanges designated by the Commodity Futures Trading Commission ("CFTC") or, consistent with CFTC regulations, on foreign exchanges. The Funds intend primarily to invest in short positions on U.S. Treasury Futures contracts. A futures contract provides for the future sale by one party and purchase by another party of a specified quantity of the security or other financial instrument at a specified price and time. A futures contract on an index is an agreement pursuant to which two parties agree to take or make delivery of an amount of cash equal to the difference between the value of the index at the close of the last trading day of the contract and the price at which the index contract originally was written. The clearing house of the exchange on which a futures contract is entered into becomes the counterparty to each purchaser and seller of the futures contract.

A futures contract held by a Fund is valued daily at the official settlement price on the exchange on which it is traded. Each day a futures contract is held, the Fund pays or receives cash, called "variation margin," equal to the daily change in value of the futures contract. Variation margin does not represent borrowing or a loan by the Fund but is instead a settlement between the Fund and the broker of the amount one would owe the other if the futures contract expired. The Fund also is required to deposit and to maintain margin with respect to put and call options on futures contracts written by it. Such margin deposits will vary depending on the nature of the underlying futures contract (and the related initial margin requirements), the current market value of the option and other futures positions held by the Fund. Although some futures contracts call for making or taking delivery of the underlying assets, generally these obligations are closed out prior to delivery by offsetting purchases or sales of matching futures contracts (involving the same exchange, underlying security or index and delivery month). If an offsetting purchase price is less than the original sale price, a Fund realizes a capital gain, or if it is more, the Fund realizes a capital loss. Conversely, if an offsetting sale price is more than the original purchase price, a Fund realizes a capital gain, or if it is less, the Fund realizes a capital loss. The transaction costs also must be included in these calculations. As discussed below, however, the Funds may not always be able to make an offsetting purchase or sale. In the case of a physically settled futures contract, this could result in the Funds being required to deliver, or receive, the underlying physical commodity, which could be adverse to the Funds.

At any time prior to the expiration of a futures contract, a Fund may seek to close the position by seeking to take an opposite position, which would operate to terminate the Fund's existing position in the contract. Positions in futures

Robinson Funds
NOTES TO FINANCIAL STATEMENTS - Continued
December 31, 2024

contracts and options on futures contracts may be closed out only on the exchange on which they were entered into (or through a linked exchange). No secondary market for such contracts exists. Although the Funds may enter into futures contracts only if there is an active market for such contracts, there is no assurance that an active market will exist at any particular time. Most futures exchanges limit the amount of fluctuation permitted in futures contract prices during a single trading day. Once the daily limit has been reached in a particular contract, no trades may be made that day at a price beyond that limit or trading may be suspended for specified periods during the day. It is possible that futures contract prices could move to the daily limit for several consecutive trading days with little or no trading, thereby preventing prompt liquidation of futures positions at an advantageous price and subjecting the Fund to substantial losses. In such event, and in the event of adverse price movements, the Fund would be required to make daily cash payments of variation margin. In such situations, if the Fund had insufficient cash, it might have to sell assets to meet daily variation margin requirements at a time when it would be disadvantageous to do so. In addition, if the transaction is entered into for hedging purposes, in such circumstances the Fund may realize a loss on a futures contract or option that is not offset by an increase in the value of the hedged position. Losses incurred in futures transactions and the costs of these transactions will affect the Fund's performance.

(f) Short Sales

The Funds and the CEFs held by the Funds may sell securities short. Short sales are transactions under which the Funds sell a security they do not own in anticipation of a decline in the value of that security. To complete such a transaction, the Funds must borrow the security to make delivery to the buyer. The Funds then are obligated to replace the security borrowed by purchasing the security at market price at the time of replacement. The price at such time may be more or less than the price at which the security was sold by the Funds. When a security is sold short a decrease in the value of the security will be recognized as a gain and an increase in the value of the security will be recognized as a loss, which is potentially limitless. Until the security is replaced, the Funds are required to pay the lender amounts equal to dividend or interest that accrue during the period of the loan which is recorded as an expense. To borrow the security, the Funds also may be required to pay a premium or an interest fee, which are recorded as interest expense. Cash or securities are segregated for the broker to meet the necessary margin requirements. The Funds are subject to the risk that it may not always be able to close out a short position at a particular time or at an acceptable price.

(g) Exchange Traded Funds ("ETFs")

ETFs typically trade on securities exchanges and their shares may, at times, trade at a premium or discount to their net asset values. In addition, an ETF may not replicate exactly the performance of the benchmark index it seeks to track for a number of reasons, including transaction costs incurred by the ETF, the temporary unavailability of certain index securities in the secondary market or discrepancies between the ETF and the index with respect to the weighting of securities or the number of securities held. Investing in ETFs, which are investment companies, may involve duplication of advisory fees and certain other expenses. As a result, Fund shareholders indirectly bear their proportionate share of these acquired expenses. Therefore, the cost of investing in the Fund will be higher than the cost of investing directly in ETFs and may be higher than other mutual funds that invest directly in securities.

Each ETF in which the Fund invests is subject to specific risks, depending on the nature of the ETF. Each ETF is subject to the risks associated with direct ownership of the securities comprising the index on which the ETF is based. These risks could include liquidity risk, sector risk as well as risks associated with fixed-income securities.

(h) Distributions to Shareholders

The Funds will make dividend distributions of net investment income, if any, monthly and net capital gains distributions, if any, at least annually, typically in December. Each Fund may make an additional payment of dividends or distributions if it deems it desirable at any other time during the year. Distributions to shareholders are

Robinson Funds
NOTES TO FINANCIAL STATEMENTS - Continued
December 31, 2024

recorded on the ex-dividend date. The amount and timing of distributions are determined in accordance with federal income tax regulations, which may differ from GAAP.

The character of distributions made during the year from net investment income or net realized gains may differ from the characterization for federal income tax purposes due to differences in the recognition of income, expense and gain (loss) items for financial statement and tax purposes.

(i) Illiquid Securities

Pursuant to Rule 22e-4 under the 1940 Act, the Funds have adopted a Liquidity Risk Management Program (“LRMP”) that requires, among other things, that the Funds limit their illiquid investments that are assets to no more than 15% of net assets. An illiquid investment is any security which may not reasonably be expected to be sold or disposed of in current market conditions in seven calendar days or less without the sale or disposition significantly changing the market value of the investment. If the Advisor, at any time, determines that the value of illiquid securities held by a Fund exceeds 15% of its net asset value, the Advisor will take such steps as it considers appropriate to reduce them as soon as reasonably practicable in accordance with the Funds’ written LRMP.

(j) Federal Income Taxes

The Funds intend to comply with the requirements of Subchapter M of the Internal Revenue Code applicable to regulated investment companies and to distribute substantially all of its net investment income and any net realized gains to its shareholders. Therefore, no provision is made for federal income or excise taxes. Due to the timing of dividend distributions and the differences in accounting for income and realized gains and losses for financial statement and federal income tax purposes, the fiscal year in which amounts are distributed may differ from the year in which the income and realized gains and losses are recorded by the Funds.

Accounting for Uncertainty in Income Taxes (the “Income Tax Statement”) requires an evaluation of tax positions taken (or expected to be taken) in the course of preparing a Funds’ tax returns to determine whether these positions meet a “more-likely-than-not” standard that, based on the technical merits, have a more than fifty percent likelihood of being sustained by a taxing authority upon examination. A tax position that meets the “more-likely-than-not” recognition threshold is measured to determine the amount of benefit to recognize in the financial statements. The Funds recognize interest and penalties, if any, related to unrecognized tax benefits as income tax expense in the Statements of Operations.

The Income Tax Statement requires management of the Funds to analyze tax positions taken in the prior three open tax years, if any, and tax positions expected to be taken in the Fund’s current tax year, as defined by the IRS statute of limitations for all major jurisdictions, including federal tax authorities and certain state tax authorities. As of December 31, 2024, and during the prior three open tax years, the Funds did not have a liability for any unrecognized tax benefits. The Funds have no examination in progress and are not aware of any tax positions for which they are reasonably possible that the total amounts of unrecognized tax benefits will significantly change in the next twelve months.

Note 3 – Investment Advisory and Other Agreements

The Trust, on behalf of the Funds, entered into an Investment Advisory Agreement (the “Agreement”) with Liberty Street Advisors, Inc. (the “Advisor”). Under the terms of the Agreement, the Funds pay a monthly investment advisory fee to the Advisor at the annual rate of 1.10% of the Funds’ average daily net assets. The Advisor engages Robinson Capital Management, LLC (the “Sub-Advisor”) to manage the Funds and pays the Sub-Advisor from its advisory fees.

The Advisor has contractually agreed to waive its fees and/or pay for operating expenses of the Funds to ensure that total annual operating expenses (excluding taxes, interest, portfolio transaction expenses, acquired fund fees and

Robinson Funds
NOTES TO FINANCIAL STATEMENTS - Continued

expenses as determined in accordance with Form N-1A, expenses incurred in connection with any merger or reorganization and extraordinary expenses such as litigation expenses) do not exceed 1.60%, 2.35% and 1.35% of the Funds' average daily net assets for Class A, Class C, and Institutional Class, respectively. This agreement is in effect until April 30, 2025 for the Funds, and it may be terminated before that date only by the Trust's Board of Trustees.

For the year ended December 31, 2024, the Advisor waived a portion of its advisory fees and other expenses totaling \$167,343, and \$200,816 for the Tax Advantaged Income Fund and Opportunistic Income Fund, respectively. The Fund's advisor is permitted to seek reimbursement from the Fund, subject to certain limitations, of fees waived or payments made to the Fund for a period ending three full fiscal years after the date of the waiver or payment. This reimbursement may be requested from the Fund if the reimbursement will not cause the Fund's annual expense ratio to exceed the lesser of (a) the expense limitation amount in effect at the time such fees were waived or payments made, or (b) the expense limitation amount in effect at the time of the reimbursement. The potential recoverable amount is noted as "Commitments and contingencies" as reported on the Statement of Assets and Liabilities. The Advisor may recapture all or a portion of this amount no later than December 31, of the years stated below:

	Tax Advantaged Income Fund	Opportunistic Income Fund
2025	76,403*	187,727
2026	44,710	172,782
2027	167,343	200,816
Total	\$ 288,456	\$ 561,325

*Prior to May 1, 2022, the Advisor had agreed to voluntarily waive a portion of its advisory fee after expenses reimbursed.

UMB Fund Services, Inc. ("UMBFS"), serves as the Funds' fund accountant, transfer agent and co-administrator; and Mutual Fund Administration, LLC ("MFAC") serves as the Funds' other co-administrator. UMB Bank, n.a., an affiliate of UMBFS, serves as the Funds' custodian. The Funds' allocated fees incurred for fund accounting, fund administration, transfer agency and custody services for the year ended December 31, 2024 are reported on the Statement of Operations as Fund services fees.

Foreside Fund Services, LLC, a wholly owned subsidiary of Foreside Financial Group, LLC (dba ACA Group), serves as the Funds' distributor (the "Distributor"). The Distributor does not receive compensation from the Funds for its distribution services; the Advisor pays the Distributor a fee for its distribution-related services.

Certain trustees and officers of the Trust are employees of UMBFS or MFAC. The Funds do not compensate trustees and officers affiliated with the Funds' co-administrators. For the year ended December 31, 2024, the Funds' allocated fees incurred to Trustees who are not affiliated with the Funds' co-administrators are reported on the Statement of Operations.

The Funds' Board of Trustees has adopted a Deferred Compensation Plan (the "Plan") for the Independent Trustees that enables Trustees to elect to receive payment in cash or the option to select various fund(s) in the Trust in which their deferred accounts shall be deemed to be invested. If a trustee elects to defer payment, the Plan provides for the creation of a deferred payment account. The Funds' liability for these amounts is adjusted for market value changes in the invested fund(s) and remains a liability to the Funds until distributed in accordance with the Plan. The Trustees Deferred compensation liability under the Plan constitutes a general unsecured obligation of each Fund

Robinson Funds
NOTES TO FINANCIAL STATEMENTS - Continued

and is disclosed in the Statement of Assets and Liabilities. Contributions made under the plan and the change in unrealized appreciation/depreciation and income are included in the Trustees' fees and expenses in the Statement of Operations.

Dziura Compliance Consulting, LLC provides Chief Compliance Officer ("CCO") services to the Trust. The Funds' allocated fees incurred for CCO services for the year ended December 31, 2024, are reported on the Statement of Operations.

Note 4 – Federal Income Taxes

At December 31, 2024, gross unrealized appreciation and depreciation of investments, based on cost for federal income tax purposes were as follows:

	Tax Advantaged Income Fund	Opportunistic Income Fund
Cost of investments	\$ 225,606,004	\$ 10,941,457
Gross unrealized appreciation	\$ 9,872,899	\$ 1,192,072
Gross unrealized depreciation	(3,715,188)	(532,032)
Net unrealized appreciation (depreciation) on investments	\$ 6,157,711	\$ 660,040

The difference between cost amounts for financial statement and federal income tax purposes is due primarily to timing differences in recognizing certain gains and losses in security transactions.

GAAP requires certain components of net assets to be reclassified between financial and tax reporting. These reclassifications have no effect on net assets or net asset value per share. For the year ended December 31, 2024, permanent differences in book and tax accounting have been reclassified to Capital and Total accumulated deficit as follows:

	Increase (Decrease)	
	Paid-In Capital	Total Accumulated Deficit
Tax Advantaged Income Fund	\$ (61,286)	\$ 61,286
Opportunistic Income Fund	1,152	(1,152)

As of December 31, 2024, the components of accumulated earnings/(deficit) on a tax basis were as follows:

	Tax Advantaged Income Fund	Opportunistic Income Fund
Undistributed ordinary income	\$ -	\$ 48,314
Undistributed long-term gains	-	-
Tax accumulated earnings	-	48,314

Robinson Funds

	Tax Advantaged Income Fund	Opportunistic Income Fund
Accumulated capital and other losses	(908,048)	(5,072,122)
Unrealized appreciation on investments	6,157,711	660,040
Unrealized deferred compensation	(23,330)	(19,565)
Total accumulated deficit	<u>\$ 5,226,333</u>	<u>\$ (4,383,333)</u>

The tax character of distribution paid during the fiscal years ended December 31, 2024 and December 31, 2023 were as follows:

Distribution paid from:	Tax Advantaged Income Fund		Opportunistic Income Fund	
	2024	2023	2024	2023
Tax exempt income	\$ 8,537,393	\$ 5,099,532	\$ -	\$ -
Ordinary income	73,166	55,777	505,254	438,972
Net long-term capital gains	-	-	-	-
Return of capital	1,869,465	544,951	-	-
Total distributions paid	<u>\$ 10,480,024</u>	<u>\$ 5,700,260</u>	<u>\$ 505,254</u>	<u>\$ 438,972</u>

To the extent that a fund may realize future net capital gains, those gains will be offset by any of its unused capital loss carryforward. Future capital loss carryover utilization in any given year may be subject to Internal Revenue Code limitations.

As of December 31, 2024, The Funds had net capital loss carryovers as follows:

	Tax Advantaged Income Fund	Opportunistic Income Fund
Not subject to expiration:		
Short Term	\$ -	\$ 1,630,455
Long Term	908,048	3,441,667
Total	<u>\$ 908,048</u>	<u>\$ 5,072,122</u>

Capital loss carryovers are available to offset future realized capital gains and thereby reduce further taxable gain distributions. During the year ended December 31, 2024, the Tax Advantaged Income Fund utilized \$7,604,074 and \$8,780,807 of short-term and long-term non-expiring capital loss carryovers, respectively. During the year ended December 31, 2024, the Opportunistic Income Fund utilized \$430,902 and \$89,507 of short-term and long-term capital loss carryovers, respectively.

Note 5 – Investment Transactions

For the year ended December 31, 2024, purchases and sales of investments, excluding short-term investments, were as follows:

	Purchases	Sales
Tax Advantaged Income Fund	\$ 119,626,183	\$ 142,986,625
Opportunistic Income Fund	7,532,323	8,514,035

Note 6 – Distribution Plan

The Trust, on behalf of the Funds, has adopted a Distribution Plan (the “Plan”) pursuant to Rule 12b-1 under the 1940 Act, that allows the Funds to pay distribution fees for the sale and distribution of their Class A and Class C shares. For Class A shares, the maximum annual fee payable to the Distributor for such distribution and/or shareholder liaison services is 0.25% of the average daily net assets of such shares. For Class C shares, the maximum annual fees payable to the Distributor for distribution services and administrative services are 0.75% and 0.25%, respectively, of the average daily net assets of such shares. The Institutional Class does not pay any distribution fees.

For the year ended December 31, 2024, distribution fees incurred are disclosed on the Statement of Operations.

The Advisor’s affiliated broker-dealer, HRC Fund Associates, LLC (“HRC”), Member FINRA/SIPC, markets the Fund shares to financial intermediaries pursuant to a marketing agreement with the Advisor. The marketing agreement between the Advisor and HRC is not part of the Plan. The Advisor pays HRC out of its own resources and without additional cost to the Fund or its shareholders.

Note 7 – Shareholder Servicing Plan

The Trust, on behalf of the Funds, has adopted a Shareholder Servicing Plan to pay a fee at an annual rate of up to 0.15% of average daily net assets of shares serviced by shareholder servicing agents who provide administrative and support services to their customers.

For the year ended December 31, 2024, shareholder servicing fees incurred are disclosed on the Statement of Operations.

Note 8 – Indemnifications

In the normal course of business, the Funds enter into contracts that contain a variety of representations which provide general indemnifications. The Funds’ maximum exposure under these arrangements is unknown, as this would involve future claims that may be made against the Funds that have not yet occurred. However, the Funds expect the risk of loss to be remote.

Note 9 – Fair Value Measurements and Disclosure

FASB Accounting Standard Codification, “Fair Value Measurement and Disclosures”, Topic 820 (ASC 820) Fair Value Measurements and Disclosures defines fair value, establishes a framework for measuring fair value in accordance with GAAP, and expands disclosure about fair value measurements. It also provides guidance on determining when there has been a significant decrease in the volume and level of activity for an asset or a liability, when a transaction is not orderly, and how that information must be incorporated into a fair value measurement.

Under ASC 820, various inputs are used in determining the value of the Funds’ investments. These inputs are summarized into three broad Levels as described below:

- Level 1 – Unadjusted quoted prices in active markets for identical assets or liabilities that the Fund has the ability to access.
- Level 2 – Observable inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly or indirectly. These inputs may include quoted prices for the identical instrument on an inactive market, prices for similar instruments, interest rates, prepayment speeds, credit risk, yield curves, default rates and similar data.

Robinson Funds
NOTES TO FINANCIAL STATEMENTS - Continued
December 31, 2024

- Level 3 – Unobservable inputs for the asset or liability, to the extent relevant observable inputs are not available, representing the Fund’s own assumptions about the assumptions a market participant would use in valuing the asset or liability, and would be based on the best information available.

The availability of observable inputs can vary from security to security and is affected by a wide variety of factors, including, for example, the type of security, whether the security is new and not yet established in the marketplace, the liquidity of markets, and other characteristics particular to the security. To the extent that valuation is based on models or inputs that are less observable or unobservable in the market, the determination of fair value requires more judgment. Accordingly, the degree of judgment exercised in determining fair value is greatest for instruments categorized in Level 3.

The inputs used to measure fair value may fall into different Levels of the fair value hierarchy. In such cases, for disclosure purposes, the Level in the fair value hierarchy within which the fair value measurement falls in its entirety, is determined based on the lowest Level input that is significant to the fair value measurement in its entirety.

The inputs or methodology used for valuing securities are not an indication of the risk associated with investing in those securities. The following is a summary of the inputs used, as of December 31, 2024, in valuing the Funds’ assets carried at fair value:

Tax Advantaged Income Fund	Level 1	Level 2**	Level 3***	Total
Assets

* Other financial instruments are derivative instruments such as futures contracts. Futures contracts are valued at the unrealized appreciation (depreciation) on the instrument.

** The Fund did not hold any Level 2 securities at period end.

*** The Fund did not hold any Level 3 securities at period end.

The Opportunistic Income Fund held Common Stock and Warrants that transferred into Level 3 at \$0 market value.

The following table presents additional quantitative information about valuation methodologies and inputs used for investments that are measured at fair value and categorized within Level 3 as of December 31, 2024:

Fund	Asset Class	Fair Value at December 31, 2024	Valuation Technique(s)	Unobservable Input	Range of Input	Weighted Average of Input	Impact to Valuation from an Increase in Input ⁽¹⁾
Opportunistic Income Fund	Common Stocks	\$ -	Asset Approach	Estimated Recovery Proceeds	\$ 0.00	N/A	Decrease
Opportunistic Income Fund	Warrants	\$ -	Asset Approach	Estimated Recovery Proceeds	\$ 0.00	N/A	Decrease

⁽¹⁾ This column represents the directional change in the fair value of the Level 3 investments that would result from an increase to the corresponding unobservable input. A decrease to the unobservable input would have the opposite effect.

Note 10 – Derivatives and Hedging Disclosures

FASB Accounting Standard Codification, “Derivative and Hedging”, Topic 815 (ASC 815) requires enhanced disclosures about each Fund’s derivative and hedging activities, including how such activities are accounted for and their effects on each Fund’s financial position, performance and cash flows. The Funds invested in futures contracts during the year ended December 31, 2024.

The effects of these derivative instruments on each Fund’s financial position and financial performance as reflected in the Statement of Assets and Liabilities and Statement of Operations are presented in the tables below. The fair values of derivative instruments as of December 31, 2024, by risk category are as follows:

	Statement of Asset and Liabilities Location	Derivatives not designated as hedging instruments	Asset Derivatives Value	Liability Derivatives Value

Note 11 – ReFlow Liquidity Program

The Funds may participate in the ReFlow Fund, LLC (“ReFlow”) liquidity program, which is designed to provide an alternative liquidity source for mutual funds experiencing redemptions of their shares. In order to pay cash to shareholders who redeem their shares on a given day, a mutual fund typically must hold cash in its portfolio,

liquidate portfolio securities, or borrow money, all of which impose certain costs on a fund. ReFlow provides participating mutual funds with another source of cash by standing ready to purchase shares from a fund equal to the amount of each fund's net redemptions on a given day. ReFlow will purchase Institutional Class Shares of a Fund at net asset value and will not be subject to any investment minimum applicable to such shares. ReFlow is prohibited from acquiring more than 3% of the outstanding voting securities of each Fund. ReFlow will periodically redeem its entire share position in a Fund. For use of the ReFlow service, each Fund will pay a fee to ReFlow at a rate determined by a daily auction with other participating mutual funds. During the year ended December 31, 2024, ReFlow was not utilized by the Funds.

Note 12 – Line of Credit

The Funds together with Bramshill Multi-Strategy Income Fund managed by the Advisor (together "Liberty Street Funds") have entered into a Senior Secured Revolving Credit Facility ("Facility") of \$25,000,000 (committed) and \$25,000,000 (uncommitted) with UMB Bank, n.a. Each Fund is permitted to borrow up to the lesser of 20.00% of its adjusted net assets with the cap limit of \$25,000,000, or the maximum amount permitted subject to the Fund's investment limitations. The purpose of the Facility is to finance temporarily the repurchase or redemption of shares of each Fund. Borrowings under this agreement bear interest at the Secured Overnight Financing Rate plus 275 basis points, subject to daily floor rate of 6.00%. As compensation for holding the lending commitment available, the Liberty Street Funds are charged a commitment fee on the average daily unused balance of the Facility at the rate of 0.20% per annum. Commitment fees and interest expense for the year ended December 31, 2024, are disclosed in each Fund's Statement of Operations. The Funds did not borrow under the line of credit agreement during the year ended December 31, 2024.

Note 13 – Market Disruption and Geopolitical Risks

Certain local, regional or global events such as war, acts of terrorism, the spread of infectious illnesses and/or other public health issues, financial institution instability or other events may have a significant impact on a security or instrument. These types of events and other like them are collectively referred to as "Market Disruptions and Geopolitical Risks" and they may have adverse impacts on the worldwide economy, as well as the economies of individual countries, the financial health of individual companies and the market in general in significant and unforeseen ways. Some of the impacts noted in recent times include but are not limited to embargos, political actions, supply chain disruptions, bank failures, restrictions to investment and/or monetary movement including the forced selling of securities or the inability to participate impacted markets. The duration of these events could adversely affect the Fund's performance, the performance of the securities in which the Fund invests and may lead to losses on your investment. The ultimate impact of "Market Disruptions and Geopolitical Risks" on the financial performance of the Fund's investments is not reasonably estimable at this time. Management is actively monitoring these events.

Note 14- New Accounting Pronouncements and Regulatory Updates

In March 2020, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) No. 2020-04, Reference Rate Reform (Topic 848) – Facilitation of the Effects of Reference Rate Reform on Financial Reporting. The amendments in the ASU provide optional temporary financial reporting relief from the effect of certain types of contract modifications due to the planned discontinuation of the London Interbank Offered Rate and other interbank-offered based reference rates as of the end of 2021. The ASU is effective for certain reference rate-related contract modifications that occur during the period March 12, 2020 through December 31, 2022. In December 2022, the FASB issued ASU No. 2022-06, Reference Rate Reform (Topic 848) - Deferral of the Sunset Date of Topic 848, which extends the period through December 31, 2024. Management has reviewed the requirements and believes the adoption of these ASUs will not have a material impact on the financial statements.

In November 2023, the FASB issued ASU 2023-07, “Segment Reporting (Topic 280): Improvements to Reportable Segment Disclosures (“ASU 2023-07”),” which enhances disclosure requirements about significant segment expenses that are regularly provided to the chief operating decision maker (the “CODM”). ASU 2023-07, among other things, (i) requires a single segment public entity to provide all of the disclosures as required by Topic 280, (ii) requires a public entity to disclose the title and position of the CODM and an explanation of how the CODM uses the reported measure(s) of segment profit or loss in assessing segment performance and deciding how to allocate resources and (iii) provides the ability for a public entity to elect more than one performance measure. ASU 2023-07 is effective for fiscal years beginning after December 15, 2023, and interim periods within fiscal years beginning after December 15, 2024. Management has evaluated the impact of applying ASU 2023-07, and the Funds have adopted the ASU during the reporting period. The adoption of the ASU does not have a material impact on the financial statements. Required disclosure is included in Note 1.

Note 15 – Events Subsequent to the Fiscal Period End

The Funds have adopted financial reporting rules regarding subsequent events which require an entity to recognize in the financial statements the effects of all subsequent events that provide additional evidence about conditions that existed at the date of the balance sheet. Management has evaluated each Fund’s related events and transactions that occurred through the date of issuance of each Fund’s financial statements.

There were no events or transactions that occurred during this period that materially impacted the amounts or disclosures in each Fund’s financial statements.

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Board of Trustees of Investment Managers Series Trust and Shareholders of Robinson Funds

Opinion on the Financial Statements

We have audited the accompanying statements of assets and liabilities of the Robinson Tax Advantaged Income Fund and Robinson Opportunistic Income Fund (the "Funds"), each a series of Investment Managers Series Trust (the "Trust"), including the schedules of investments, as of December 31, 2024, the related statements of operations for the year then ended, the statements of changes in net assets for each of the two years in the period then ended, the financial highlights for each of the five years in the period then ended, and the related notes (collectively referred to as the "financial statements"). In our opinion, the financial statements and financial highlights referred to above present fairly, in all material respects, the financial position of the Robinson Tax Advantaged Income Fund and the Robinson Opportunistic Fund as of December 31, 2024, the results of their operations for the year then ended, the changes in their net assets for each of the two years in the period then ended, and their financial highlights for each of the five years in the period then ended, in conformity with accounting principles generally accepted in the United States of America.

Basis for Opinion

These financial statements are the responsibility of the Funds' management. Our responsibility is to express an opinion on the Funds' financial statements based on our audits. We are a public accounting firm registered with the Public Company Accounting Oversight Board (United States) ("PCAOB") and are required to be independent with respect to the Funds in accordance with the U.S. federal securities laws and the applicable rules and regulations of the Securities and Exchange Commission and the PCAOB. We have served as the auditor of one or more of the funds in the Trust since 2007.

We conducted our audits in accordance with the standards of the PCAOB. Those standards require that we plan and perform the audits to obtain reasonable assurance about whether the financial statements are free of material misstatement, whether due to error or fraud. The Funds are not required to have, nor were we engaged to perform, an audit of the Funds' internal control over financial reporting. As part of our audits we are required to obtain an understanding of internal control over financial reporting, but not for the purpose of expressing an opinion on the effectiveness of the Funds' internal control over financial reporting. Accordingly, we express no such opinion.

Our audits included performing procedures to assess the risks of material misstatement of the financial statements, whether due to error or fraud, and performing procedures that respond to those risks. Such procedures included examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements. Our audits also included evaluating the accounting principles used and significant estimates made by management, as well as evaluating the overall presentation of the financial statements. Our procedures included confirmation of securities owned as of December 31, 2024 by correspondence with the custodian. We believe that our audits provide a reasonable basis for our opinion.
