Bramshill Multi-Strategy Income Fund
NOTES TO FINANCIAL STATEMENTS
June 30, 2024 (Unaudited)

Note 1 – Organization

The Bramshill Multi-Strategy Income Fund (the “Fund”) was organized as a non-diversified series of Investment Managers Series Trust, a Delaware statutory trust (the “Trust”) which is registered as an open-end management investment company under the Investment Company Act of 1940, as amended (the “1940 Act”). The Fund seeks total return with an emphasis on providing current income. The Fund currently offers four classes of shares: A shares, C shares, T shares, and Institutional shares. Class T shares are not currently available for purchase.

The Fund commenced investment operations on December 31, 2015, with Class A, Class C, and Institutional Class shares, prior to which its only activity was the receipt of a \$10,000 investment from principals of the Fund’s advisor and a \$49,561,285 transfer of shares of the Fund in exchange for the net assets of the Braddock Structured Opportunities Fund Series A, LP, a Delaware limited partnership (the “Company”). This exchange was nontaxable, whereby the Fund’s Institutional Class issued 4,933,206 shares for the net assets of the Company on December 31, 2015. Assets with a fair market value of \$49,561,285 consisting of cash, interest receivable and securities of the Company with a fair value of \$46,984,053 (identified costs of investments transferred were \$44,433,272) and cash were the primary assets received by the Fund on January 1, 2016. For financial reporting purposes, assets received and shares issued by the Fund were recorded at fair value; however, the cost basis of the investments received from the Partnership was carried forward to align ongoing reporting of the Fund’s realized and unrealized gains and losses with amount distributable to shareholders for tax purposes.

The shares of each class represent an interest in the same portfolio of investments of the Fund and have equal rights as to voting, redemptions, dividends and liquidation, subject to the approval of the Trustees. Income, expenses (other than expenses attributable to a specific class) and realized and unrealized gains and losses on investments are allocated to each class of shares in proportion to their relative net assets. Shareholders of a class that bears distribution and service expenses under the terms of a distribution plan have exclusive voting rights to that distribution plan.

The Fund is an investment company and accordingly follows the investment company accounting and reporting guidance of the Financial Accounting Standards Board (FASB) Accounting Standard Codification, Financial Services – Investment Companies”, Topic 946 (ASC 946).

Note 2 – Accounting Policies

The following is a summary of the significant accounting policies consistently followed by the Fund in the preparation of its financial statements. The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America (“GAAP”) requires management to make estimates and assumptions that affect the reported amounts and disclosures in the financial statements. Actual results could differ from these estimates.

(a) Valuation of Investments

The Fund values equity securities at the last reported sale price on the principal exchange or in the principal over the counter (“OTC”) market in which such securities are traded, as of the close of regular trading on the NYSE on the day the securities are being valued or, if there are no sales, at the mean between the last available bid and asked prices on that day. Securities traded on the NASDAQ are valued at the NASDAQ Official Closing Price (“NOCP”). Investments in open-end investment companies are valued at the daily closing net asset value of the respective investment company. Debt securities are valued by utilizing a price supplied by independent pricing service providers. The independent pricing service providers may use various valuation methodologies including matrix pricing and other analytical pricing models as well as market transactions and dealer quotations. These models generally consider such factors as yields or prices of bonds of comparable quality, type of issue, coupon, maturity, ratings and general market conditions. If a price is not readily available for a portfolio security, the

Bramshill Multi-Strategy Income Fund
NOTES TO FINANCIAL STATEMENTS – Continued
June 30, 2024 (Unaudited)

security will be valued at fair value (the amount which the Fund might reasonably expect to receive for the security upon its current sale). The Board of Trustees has designated the Advisor as the Fund's valuation designee (the "Valuation Designee") to make all fair value determinations with respect to the Fund's portfolio investments, subject to the Board's oversight. As the Valuation Designee, the Advisor has adopted and implemented policies and procedures to be followed when the Fund must utilize fair value pricing.

Trading in securities on many foreign securities exchanges and OTC markets is normally completed before the close of business on each U.S. business day. In addition, securities trading in a particular country or countries may not take place on all U.S. business days or may take place on days which are not U.S. business days. Changes in valuations on certain securities may occur at times or on days on which the Fund's net asset values ("NAV") are not calculated and on which the Fund does not affect sales and redemptions of its shares.

(b) Asset-Backed Securities

Asset-backed securities include pools of mortgages, loans, receivables or other assets. Payment of principal and interest may be largely dependent upon the cash flows generated by the assets backing the securities, and, in certain cases, supported by letters of credit, surety bonds, or other credit enhancements. The value of asset-backed securities may also be affected by the creditworthiness of the servicing agent for the pool, the originator of the loans or receivables, or the financial institution(s) providing the credit support. In addition, asset-backed securities are not backed by any governmental agency.

Collateralized Debt Obligations ("CDOs") include Collateralized Bond Obligations ("CBOs"), Collateralized Loan Obligations ("CLOs") and other similarly structured securities. CBOs and CLOs are types of asset backed securities. A CBO is a trust which is backed by a diversified pool of high risk, below investment grade fixed income securities. A CLO is a trust typically collateralized by a pool of loans, which may include, among others, domestic and foreign senior secured loans, senior unsecured loans, and subordinate corporate loans, including loans that may be rated below investment grade or equivalent unrated loans. The risks of an investment in a CDO depend largely on the type of the collateral securities and the class of the CDO in which a Fund invests. CDOs carry additional risks including, but not limited to, (i) the possibility that distributions from collateral securities will not be adequate to make interest or other payments, (ii) the collateral may decline in value or default, (iii) a Fund may invest in CDOs that are subordinate to other classes, and (iv) the complex structure of the security may not be fully understood at the time of investment and may produce disputes with the issuer or unexpected investment results.

(c) Short Sales

The Fund may sell securities short. Short sales are transactions under which the Fund sells a security it does not own in anticipation of a decline in the value of that security. To complete such a transaction, the Fund must borrow the security to make delivery to the buyer. The Fund then is obligated to replace the security borrowed by purchasing the security at market price at the time of replacement. The price at such time may be more or less than the price at which the security was sold by the Fund. When a security is sold short a decrease in the value of the security will be recognized as a gain and an increase in the value of the security will be recognized as a loss, which is potentially limitless. Until the security is replaced, the Fund is required to pay the lender amounts equal to dividend or interest that accrue during the period of the loan which is recorded as an expense. To borrow the security, the Fund also may be required to pay a premium or an interest fee, which are recorded as interest expense. Cash or securities are segregated for the broker to meet the necessary margin requirements. The Fund is subject to the risk that it may not always be able to close out a short position at a particular time or at an acceptable price.

(d) Investment Transactions, Investment Income and Expenses

Bramshill Multi-Strategy Income Fund
NOTES TO FINANCIAL STATEMENTS – Continued
June 30, 2024 (Unaudited)

Investment transactions are accounted for on the trade date. Realized gains and losses on investments are determined on the identified cost basis. Dividend income is recorded net of applicable withholding taxes on the ex-dividend date and interest income is recorded on an accrual basis. Withholding taxes on foreign dividends, if applicable, are paid (a portion of which may be reclaimable) or provided for in accordance with the applicable country's tax rules and rates and are disclosed in the Statement of Operations. Withholding tax reclaims are filed in certain countries to recover a portion of the amounts previously withheld. The Fund records a reclaim receivable based on a number of factors, including a jurisdiction's legal obligation to pay reclaims as well as payment history and market convention. Discounts on debt securities are accreted or amortized to interest income over the lives of the respective securities using the effective interest method. Premiums for callable debt securities are amortized to the earliest call date, if the call price was less than the purchase price. If the call price was not at par and the security was not called, the security is amortized to the next call price and date. Income and expenses of the Fund is allocated on a pro rata basis to each class of shares relative net assets, except for distribution and service fees which are unique to each class of shares. Expenses incurred by the Trust with respect to more than one fund are allocated in proportion to the net assets of each fund except where allocation of direct expenses to each fund or an alternative allocation method can be more appropriately made.

(e) Reverse Repurchase Agreements

The Fund may enter into "reverse" repurchase agreements to seek to enhance the portfolio's return. Pursuant to a reverse repurchase agreement, the Fund will sell portfolio securities and agree to repurchase them from the buyer at a particular date and price. When the Fund enters into a reverse repurchase agreement, it will establish a segregated account in which it will maintain liquid assets in an amount at least equal to the repurchase price marked to market daily (including accrued interest), and will subsequently monitor the account to ensure that such equivalent value is maintained. The Fund pays interest on amounts obtained pursuant to reverse repurchase agreements. Reverse repurchase agreements are considered to be borrowings by the Fund. Similar to borrowing, reverse repurchase agreements provide the Fund with cash for investment purposes, which creates leverage and subjects the Fund to the risks of leverage. Reverse repurchase agreements also involve the risk that the other party may fail to return the securities in a timely manner or at all. The Fund could lose money if it is unable to recover the securities and the value of collateral held by the Fund, including the value of the investments made with cash collateral, is less than the value of securities. Reverse repurchase agreements also create Fund expenses and require that the Fund have sufficient cash available to purchase the debt obligations when required. Reverse repurchase agreements also involve the risk that the market value of the debt obligation that is the subject of the reverse repurchase agreement could decline significantly below the price at which the Fund is obligated to repurchase the security.

(f) Federal Income Taxes

The Fund intends to comply with the requirements of Subchapter M of the Internal Revenue Code applicable to regulated investment companies and to distribute substantially all of its net investment income and any net realized gains to its shareholders. Therefore, no provision is made for federal income or excise taxes. Due to the timing of dividend distributions and the differences in accounting for income and realized gains and losses for financial statement and federal income tax purposes, the fiscal year in which amounts are distributed may differ from the year in which the income and realized gains and losses are recorded by the Fund.

FASB Accounting Standard Codification "Accounting for Uncertainty in Income Taxes", Topic 740 (ASC 740) requires an evaluation of tax positions taken (or expected to be taken) in the course of preparing a Fund's tax returns to determine whether these positions meet a "more-likely-than-not" standard that, based on the technical merits, have a more than fifty percent likelihood of being sustained by a taxing authority upon examination. A tax position that meets the "more-likely-than-not" recognition threshold is measured to determine the amount of benefit to

Bramshill Multi-Strategy Income Fund
NOTES TO FINANCIAL STATEMENTS – Continued
June 30, 2024 (Unaudited)

recognize in the financial statements. The Fund recognizes interest and penalties, if any, related to unrecognized tax benefits as income tax expense in the Statement of Operations.

ASC 740 requires management of the Fund to analyze tax positions taken in the prior three open tax years, if any, and tax positions expected to be taken in the Fund's current tax year, as defined by the IRS statute of limitations for all major jurisdictions, including federal tax authorities and certain state tax authorities. As of and during the open tax periods ended December 31, 2020-2023, the Fund did not have a liability for any unrecognized tax benefits. The Fund has no examination in progress and is not aware of any tax positions for which it is reasonably possible that the total amounts of unrecognized tax benefits will significantly change in the next twelve months.

(g) Distributions to Shareholders

The Fund will make dividend distributions of net investment income, if any, monthly and net capital gains distributions, if any, at least annually, typically in December. The Fund may make an additional payment of dividends or distributions if it deems it desirable at any other time during the year. Distributions to shareholders are recorded on the ex-dividend date. The amount and timing of distributions are determined in accordance with federal income tax regulations, which may differ from GAAP.

The character of distributions made during the year from net investment income or net realized gains may differ from the characterization for federal income tax purposes due to differences in the recognition of income, expense and gain (loss) items for financial statement and tax purposes.

(h) Illiquid Securities

Pursuant to Rule 22e-4 under the 1940 Act, the Fund has adopted a Liquidity Risk Management Program ("LRMP") that requires, among other things, that the Fund limits its illiquid investments that are assets to no more than 15% of net assets. An illiquid investment is any security which may not reasonably be expected to be sold or disposed of in current market conditions in seven calendar days or less without the sale or disposition significantly changing the market value of the investment. If the Advisor, at any time, determines that the value of illiquid securities held by the Fund exceeds 15% of its net asset value, the Advisor will take such steps as it considers appropriate to reduce them as soon as reasonably practicable in accordance with the Fund's written LRMP.

(i) Use of Estimates

The presentation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and the reported amounts of income and expenses during the reporting period. Actual results could differ from those estimates.

(j) LIBOR Risk

Certain of the Fund's investments, payment obligations and financing terms may be based on floating rates, such as LIBOR, Euro Interbank Offered Rate and other similar types of reference rates (each, a "Reference Rate"). On July 27, 2017, the Chief Executive of the UK Financial Conduct Authority ("FCA"), which regulates LIBOR, announced that the FCA will no longer persuade nor compel banks to submit rates for the calculation of LIBOR and certain other Reference Rates after 2021. Such announcement indicates that the continuation of LIBOR and other Reference Rates on the current basis cannot and will not be guaranteed after 2021. The transition away from Reference Rates may lead to increased volatility and illiquidity in markets that are tied to such Reference Rates and reduced values of Reference Rate-related instruments. This announcement and any additional regulatory or market changes that occur as a result of the transition away from Reference Rates may have an adverse impact on a Fund's investments, performance or financial condition.

Bramshill Multi-Strategy Income Fund
NOTES TO FINANCIAL STATEMENTS – Continued
June 30, 2024 (Unaudited)

Note 3 – Investment Advisory and Other Agreements

The Trust, on behalf of the Fund, entered into an Investment Advisory Agreement (the “Agreement”) with Liberty Street Advisors, Inc. (the “Advisor”). Under the terms of the Agreement, the Fund pays a monthly investment advisory fee to the Advisor at the annual rate of 1.25% of the Fund’s average daily net assets. As of December 1, 2022, The Advisor engages Bramshill Investments, LLC (the “Sub-Advisor”) to manage the Fund and pays the Sub-Advisor from its advisory fees. Prior to December 1, 2022 the Advisor engaged Braddock Financial, LLC as the Sub-Advisor.

The Advisor has contractually agreed to waive its fees and/or pay for operating expenses of the Fund to ensure that total annual fund operating expenses (excluding any front-end or contingent deferred loads, taxes, leverage interest, brokerage commissions, acquired fund fees and expenses (as determined in accordance with Form N-1A), expenses incurred in connection with any merger or reorganization and extraordinary expenses such as litigation expenses) do not exceed 1.75%, 2.50% and 1.50% of the Fund's average daily net assets for Class A, Class C, and Institutional Class shares, respectively. This agreement is in effect until April 30, 2025, and it may be terminated before that date only by the Trust’s Board of Trustees.

For the six months ended June 30, 2024, the Advisor waived advisory fees totaling \$87,934. The Fund’s advisor is permitted to seek reimbursement from the Fund, subject to certain limitations, of fees waived or payments made to the Fund for a period ending three full fiscal years after the date of the waiver or payment. This reimbursement may be requested from the Fund if the reimbursement will not cause the Fund’s annual expense ratio to exceed the lesser of (a) the expense limitation amount in effect at the time such fees were waived or payments made, or (b) the expense limitation amount in effect at the time of the reimbursement. At June 30, 2024, the amount of these potentially recoverable expenses was \$322,727. The potential recoverable amount is noted as “Commitments and contingencies” as reported on the Statement of Assets and Liabilities. The Advisor may recapture all or a portion of this amount no later than December 31 of the years stated below:

	Bramshill Multi- Strategy Income Fund
2025	136,146
2026	98,647
2027	87,934
Total	\$ 322,727

UMB Fund Services, Inc. (“UMBFS”) serves as the Fund’s fund accountant, transfer agent and co-administrator; and Mutual Fund Administration, LLC (“MFAC”) serves as the Fund’s other co-administrator. UMB Bank, n.a., an affiliate of UMBFS, serves as the Fund’s custodian. The Fund’s allocated fees incurred for fund accounting, fund administration, transfer agency and custody services for the six months ended June 30, 2024, are reported on the Statement of Operations as Fund services fees.

Forside Fund Services, LLC, a wholly owned subsidiary of Forside Financial Group, LLC (d/b/a ACA Group), serves as the Fund’s distributor (the “Distributor”). The Distributor does not receive compensation from the Fund for its distribution services; the Advisor pays the Distributor a fee for its distribution-related services.

Certain trustees and officers of the Trust are employees of UMBFS or MFAC. The Fund does not compensate trustees and officers affiliated with the Fund’s co-administrators. For the six months ended June 30, 2024, the Fund’s allocated fees incurred to Trustees who are not affiliated with the Fund’s co-administrators are reported on the Statement of Operations.

Bramshill Multi-Strategy Income Fund
NOTES TO FINANCIAL STATEMENTS – Continued
June 30, 2024 (Unaudited)

The Fund's Board of Trustees has adopted a Deferred Compensation Plan (the "Plan") for the Independent Trustees that enables Trustees to elect to receive payment in cash or the option to select various fund(s) in the Trust in which their deferred accounts shall be deemed to be invested. If a trustee elects to defer payment, the Plan provides for the creation of a deferred payment account. The Fund's liability for these amounts is adjusted for market value changes in the invested fund(s) and remains a liability to the Fund until distributed in accordance with the Plan. The Trustees Deferred compensation liability under the Plan constitutes a general unsecured obligation of the Fund and is disclosed in the Statement of Assets and Liabilities. Contributions made under the plan and the change in unrealized appreciation/depreciation and income are included in the Trustees' fees and expenses in the Statement of Operations.

Dziura Compliance Consulting, LLC provides Chief Compliance Officer ("CCO") services to the Trust. The Fund's allocated fees incurred for CCO services for the six months ended June 30, 2024, are reported on the Statement of Operations.

Note 4 – Federal Income Taxes

At June 30, 2024, gross unrealized appreciation and depreciation on investments based on cost for federal income tax purposes were as follows:

Cost of investments	\$ 247,206,075
Gross unrealized appreciation	\$ 8,074,856
Gross unrealized depreciation	(7,212,083)
Net unrealized appreciation (depreciation) on investments	\$ 862,773

As of December 31, 2023, the components of accumulated earnings (deficit) on a tax basis were as follows:

Undistributed ordinary income	\$ 129,819
Undistributed long-term capital gains	-
Tax accumulated earnings	129,819
Accumulated capital and other losses	(37,852,775)
Unrealized depreciation on investments	(2,053,967)
Unrealized Deferred Compensation	(17,908)
Total accumulated deficit	\$ (39,794,831)

As of December 31, 2023, the Fund had net capital loss carryovers as follows:

Not subject to expiration:	
Short Term	\$ 9,341,232
Long Term	28,511,543
Total	\$ 37,852,775

To the extent that a fund may realize future net capital gains, those gains will be offset by any of its unused capital loss carryforward. Future capital loss carryover utilization in any given year may be subject to Internal Revenue Code limitations.

Bramshill Multi-Strategy Income Fund
NOTES TO FINANCIAL STATEMENTS – Continued
June 30, 2024 (Unaudited)

The tax character of the distributions paid during the fiscal years ended December 31, 2023 and December 31, 2022 were as follows:

Distributions paid from:	2023	2022
Ordinary income	\$ 10,949,739	\$ 10,424,642
Net long-term capital gains	-	-
Total distributions paid	<u>\$ 10,949,739</u>	<u>\$ 10,424,642</u>

Note 5 – Investment Transactions

For the six months ended June 30, 2024, purchases and sales of investments, excluding short-term investments, were as follows:

Purchases	Sales	Securities sold short	Cover short securities
\$ 80,957,205	\$ 39,862,445	\$ -	\$ -

Note 6 – Distribution Plan

The Trust, on behalf of the Fund, has adopted a Distribution Plan (the “Plan”) pursuant to Rule 12b-1 under the 1940 Act, that allows the Fund to pay distribution fees for the sale and distribution of its Class A and Class C shares. For Class A shares, the maximum annual fee payable to the Distributor for such distribution and/or shareholder liaison services is 0.25% of the average daily net assets of such shares. For Class C shares, the maximum annual fees payable to the Distributor for distribution services and shareholder liaison services are 0.75% and 0.25%, respectively, of the average daily net assets of such shares. The Institutional Class does not pay any distribution fees.

For the six months ended June 30, 2024, distribution fees incurred are disclosed on the Statement of Operations.

The Advisor’s affiliated broker-dealer, HRC Fund Associates, LLC (“HRC”), Member FINRA/SIPC, markets the Fund shares to financial intermediaries pursuant to a marketing agreement with the Advisor. The marketing agreement between the Advisor and HRC is not part of the Plan. The Advisor pays HRC out of its own resources and without additional cost to the Fund or its shareholders.

Note 7 – Shareholder Servicing Plan

The Trust, on behalf of the Fund, has adopted a Shareholder Servicing Plan to pay a fee at an annual rate of up to 0.15% of the Fund’s average daily net assets of its shares serviced by shareholder servicing agents who provide administrative and support services to their customers.

For the six months ended June 30, 2024, shareholder servicing fees incurred are disclosed on the Statement of Operations.

Note 8 – Indemnifications

In the normal course of business, the Fund enters into contracts that contain a variety of representations which provide general indemnifications. The Fund’s maximum exposure under these arrangements is unknown, as this would involve future claims that may be made against the Fund’s that have not yet occurred. However, the Fund expects the risk of loss to be remote.

NOTES TO FINANCIAL STATEMENTS – Continued
June 30, 2024 (Unaudited)

Note 9 – Fair Value Measurements and Disclosure

FASB Accounting Standard Codification, “Fair Value Measurements and Disclosures”, Topic 820 (ASC 820) defines fair value, establishes a framework for measuring fair value in accordance with GAAP, and expands disclosure about fair value measurements. It also provides guidance on determining when there has been a significant decrease in the volume and level of activity for an asset or a liability, when a transaction is not orderly, and how that information must be incorporated into a fair value measurement.

Under ASC 820, various inputs are used in determining the value of the Fund’s investments. These inputs are summarized into three broad Levels as described below:

- Level 1 – Unadjusted quoted prices in active markets for identical assets or liabilities that the Fund has the ability to access.
- Level 2 – Observable inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly or indirectly. These inputs may include quoted prices for the identical instrument on an inactive market, prices for similar instruments, interest rates, prepayment speeds, credit risk, yield curves, default rates and similar data.
- Level 3 – Unobservable inputs for the asset or liability, to the extent relevant observable inputs are not available, representing the Fund’s own assumptions about the assumptions a market participant would use in valuing the asset or liability, and would be based on the best information available.

The availability of observable inputs can vary from security to security and is affected by a wide variety of factors, including for example, the type of security, whether the security is new and not yet established in the marketplace, the liquidity of markets, and other characteristics particular to the security. To the extent that valuation is based on models or inputs that are less observable or unobservable in the market, the determination of fair value requires more judgment. Accordingly, the degree of judgment exercised in determining fair value is greatest for instruments categorized in Level 3.

The inputs to measure fair value may fall into different Levels of the fair value hierarchy. In such cases, for disclosure purposes, the Level in the fair value hierarchy within which the fair value measurement falls in its entirety, is determined based on the lowest Level input that is significant to the fair value measurement in its entirety.

The inputs or methodology used for valuing securities are not an indication of the risk associated with investing in those securities. The following is a summary of the inputs used, as of June 30, 2024, in valuing the Fund’s assets and liabilities carried at fair value:

	Level 1	Level 2	Level 3	Total
Assets				
Investments				
Asset-Backed Securities	\$ -	\$ 141,011,650	\$ 9,000,000	\$ 150,011,650
Collateralized Mortgage Obligations	-	85,285,051	-	85,285,051
Corporate Bonds*	-	-	0	-
Short-Term Investments	12,772,147	-	-	12,772,147
Total Investments	\$ 12,772,147	\$ 226,296,701	\$ 9,000,000	\$ 248,068,848

*The Fund held a Level 3 security valued at zero at period end.

Bramshill Multi-Strategy Income Fund
NOTES TO FINANCIAL STATEMENTS – Continued
June 30, 2024 (Unaudited)

The following is a reconciliation of assets in which significant unobservable inputs (Level 3) were used in determining value:

	Asset-Backed Securities	Corporate Bonds
Balance as of December 31, 2023	\$ -	\$ 0
Transfers into Level 3	-	-
Transfers out of Level 3	-	-
Total gains or losses for the period		
Included in earnings (or changes in net assets)	-	-
Net purchases	9,000,000	-
Net sales	-	-
Balance as of June 30, 2024	<u>\$ 9,000,000</u>	<u>\$ 0</u>
Change in unrealized gains or losses for the period included in earnings (or changes in net assets) for assets held at the end of the reporting period	<u>\$ -</u>	<u>\$ -</u>

The following table presents additional quantitative information about valuation methodologies and inputs used for investments that are measured at fair value and categorized within Level 3 as of June 30, 2024:

Asset Class	Fair Value at 6/30/2024	Valuation Technique(s)	Unobservable Input	Range of Input	Weighted Average of Input	Impact to Valuation from an Increase in Input ⁽¹⁾
Asset-Backed Securities	\$ 9,000,000	Market Approach	Purchase Price	\$100.00	\$100.00	Increase
Corporate Bonds	\$ 0	Asset Approach	Estimated Recovery Proceeds	\$0.00	N/A	Increase

⁽¹⁾ This column represents the directional change in the fair value of the Level 3 investments that would result from an increase to the corresponding unobservable input. A decrease to the unobservable input would have the opposite effect.

Note 10 – Derivative and Hedging Disclosure

The Fund has adopted the disclosure provisions of FASB Standard Codification 815, *Derivatives and Hedging*, which requires enhanced disclosures about the Fund's derivative and hedging activities, including how such activities are accounted for and their effects on the Fund's financial position, performance and cash flows.

For either investment or hedging purposes, the Fund may invest substantially in a broad range of derivative instruments, including structured products, swaps (including credit default swaps), futures and forward contracts, and options. Such derivatives may trade over-the-counter or on an exchange and may principally be used for one or more of the following purposes: speculation, currency hedging, duration management, or to pursue the Fund's investment objective. The Fund's derivative investments have risks, including the imperfect correlation between the value of such instruments and the underlying asset, rate or index, which creates the possibility that the loss on

Bramshill Multi-Strategy Income Fund
NOTES TO FINANCIAL STATEMENTS – Continued
June 30, 2024 (Unaudited)

such instruments may be greater than the gain in the value of the underlying asset, rate or index; the loss of principal; the possible default of the other party to the transaction; and illiquidity of the derivative investments. The Fund did not invest in derivative instruments during the six months ended June 30, 2024.

Note 11 – Callable Bond Proceeds

On November 25, 2019, Wells Fargo Bank, N.A. (Wells Fargo), the trustee for Wells Fargo Mortgage Backed Securities Trust, Series 2004-H, Class A-2 (CUSIP 94979TAB2) issued a call notice that funds received from this security will be withheld to establish a reserve account to meet its current and future expenses for litigation costs and potential judgements resulting from claims against Wells Fargo. Wells Fargo stated in its letter to certificate holders that this amount will be held for an unknown amount of time and any unused funds in reserve will be paid to certificate holders when Wells Fargo determines that such funds are no longer necessary to be held. The estimated proceeds to be received from the callable bond is reported on the Statement of Assets and Liabilities.

Note 12 – Line of Credit

The Fund together with Robinson Tax Advantaged Income Fund and Robinson Opportunistic Income Fund managed by the Advisor (together “Liberty Street Funds”) has entered into a Senior Secured Revolving Credit Facility (“Facility”) of \$25,000,000 (committed) and \$25,000,000 (uncommitted) with UMB Bank, n.a. The Fund is permitted to borrow up to the lesser of 20.00% of its adjusted net assets with the cap limit of \$25,000,000, or the maximum amount permitted subject to the Fund’s investment limitations. The purpose of the Facility is to finance temporarily the repurchase or redemption of shares of each fund. The Facility was renewed effective December 16, 2022, and borrowings now bear interest at the Variable, 1-Month CME Term SOFR plus 275 bps. Previously, the rate was the Variable, WSJ Prime Daily minus 25 bps. As compensation for holding the lending commitment available, the Liberty Street Funds are charged a commitment fee on the average daily unused balance of the Facility at the rate of 0.20% per annum. The Fund did not borrow under the line of credit agreement during the six months ended June 30, 2024.

Note 13 – ReFlow liquidity program

The Fund may participate in the ReFlow Fund, LLC (“ReFlow”) liquidity program, which is designed to provide an alternative liquidity source for mutual funds experiencing redemptions of their shares. In order to pay cash to shareholders who redeem their shares on a given day, a mutual fund typically must hold cash in its portfolio, liquidate portfolio securities, or borrow money, all of which impose certain costs on the fund. ReFlow provides participating mutual funds with another source of cash by standing ready to purchase shares from the fund equal to the amount of the fund’s net redemptions on a given day. ReFlow will purchase Institutional Class Shares of the Fund at net asset value and will not be subject to any investment minimum applicable to such shares. ReFlow is prohibited from acquiring more than 3% of the outstanding voting securities of the Fund. ReFlow will periodically redeem its entire share position in the Fund. For use of the ReFlow service, the Fund will pay a fee to ReFlow at a rate determined by a daily auction with other participating mutual funds. During the six months ended June 30, 2024, ReFlow was not utilized by the Fund.

Note 14 – Market Disruption and Geopolitical Risks

Certain local, regional or global events such as war, acts of terrorism, the spread of infectious illnesses and/or other public health issues, financial institution instability or other events may have a significant impact on a security or instrument. These types of events and other like them are collectively referred to as “Market Disruptions and Geopolitical Risks” and they may have adverse impacts on the worldwide economy, as well as the economies of individual countries, the financial health of individual companies and the market in general in significant and unforeseen ways. Some of the impacts noted in recent times include but are not limited to embargos, political actions, supply chain disruptions, bank failures, restrictions to investment and/or monetary movement including the forced selling of securities or the inability to participate impacted markets. The duration

Bramshill Multi-Strategy Income Fund
NOTES TO FINANCIAL STATEMENTS – Continued
June 30, 2024 (Unaudited)

of these events could adversely affect the Fund's performance, the performance of the securities in which the Fund invests and may lead to losses on your investment. The ultimate impact of "Market Disruptions and Geopolitical Risks" on the financial performance of the Fund's investments is not reasonably estimable at this time. Management is actively monitoring these events.

Note 15 - Recently Issued Accounting Pronouncements and Regulatory Updates

Effective January 24, 2023, the SEC adopted rule and form amendments to require mutual funds and exchange-traded funds (ETFs) to transmit concise and visually engaging streamlined annual and semiannual reports to shareholders that highlight key information deemed important for retail investors to assess and monitor their fund investments. Other information, including financial statements, will no longer appear in the funds' streamlined shareholder reports but must be available online, delivered free of charge upon request, and filed on a semiannual basis on Form N-CSR. The rule and form amendments have a compliance date of July 24, 2024. The Funds have adopted procedures in accordance with the SEC's rules and form amendments.

In March 2020, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) No. 2020-04, Reference Rate Reform (Topic 848) – Facilitation of the Effects of Reference Rate Reform on Financial Reporting. The amendments in the ASU provide optional temporary financial reporting relief from the effect of certain types of contract modifications due to the planned discontinuation of the London Interbank Offered Rate and other interbank-offered based reference rates as of the end of 2021. The ASU is effective for certain reference rate-related contract modifications that occur during the period March 12, 2020 through December 31, 2022. In December 2022, the FASB issued ASU No. 2022-06, Reference Rate Reform (Topic 848) - Deferral of the Sunset Date of Topic 848, which extends the period through December 31, 2024. Management has reviewed the requirements and believes the adoption of these ASUs will not have a material impact on the financial statements.

Note 16 – Events Subsequent to the Fiscal Period End

The Fund has adopted financial reporting rules regarding subsequent events which require an entity to recognize in the financial statements the effects of all subsequent events that provide additional evidence about conditions that existed at the date of the balance sheet. Management has evaluated the Fund's related events and transactions that occurred through the date of issuance of the Fund's financial statements.

There were no events or transactions that occurred during this period that materially impacted the amounts or disclosures in the Fund's financial statements.

This information is included in Item 7, as part of the financial statements.

Item 11. Statement Regarding Basis for Approval of Investment Advisory Contract.

Board Consideration of Investment Advisory Agreements (Unaudited)

At an in-person meeting held on June 4-5, 2024, the Board of Trustees (the “Board”) of Investment Managers Series Trust (the “Trust”), including the trustees who are not “interested persons” of the Trust (the “Independent Trustees”) as defined in the Investment Company Act of 1940, as amended (the “1940 Act”), reviewed and unanimously approved the renewal of the investment advisory agreement (the “Advisory Agreement”) between the Trust and Liberty Street Advisors, Inc. (the “Advisor”), and the sub-advisory agreement (the “Sub-Advisory Agreement”) between the Advisor and Bramshill Investments, LLC (the “Sub-Advisor”), with respect to the Bramshill Multi-Strategy Income Fund series of the Trust (the “Fund”) for additional one-year terms from when they otherwise would expire. The Advisory Agreement and the Sub-Advisory Agreement are referred to below as the “Fund Advisory Agreements.” In approving renewal of each Fund Advisory Agreement, the Board, including the Independent Trustees, determined that such renewal was in the best interests of the Fund and its shareholders.

Background

In advance of the meeting, the Board received information about the Fund and the Fund Advisory Agreements from the Advisor, the Sub-Advisor, and Mutual Fund Administration, LLC and UMB Fund Services, Inc., the Trust’s co-administrators, certain portions of which are discussed below. The materials, among other things, included information about the organization and financial condition of the Advisor and the Sub-Advisor; information regarding the background, experience, and compensation structure of relevant personnel providing services to the Fund; information about the Advisor’s and the Sub-Advisor’s compliance policies and procedures, disaster recovery and contingency planning, and policies with respect to portfolio execution and trading; information regarding the profitability of the Advisor’s overall relationship with the Fund; reports comparing the performance of the Fund with returns of the Bloomberg U.S. Aggregate Bond Index (the “Bloomberg Index”), the ICE BofA U.S. Cash Pay High Yield Index (the “ICE Index”), and a group of comparable funds (the “Peer Group”) selected by Broadridge Financial Solutions, Inc. (“Broadridge”) from Morningstar, Inc.’s Multisector Bond fund universe (the “Fund Universe”) for the one-, three-, and five-year periods ended March 31, 2024; reports comparing the investment advisory fee and total expenses of the Fund with those of the Peer Group and Fund Universe; and the advisory and sub-advisory fees paid pursuant to the Advisory Agreement and Sub-Advisory Agreement, respectively. The Board also received a memorandum from legal counsel to the Trust discussing the legal standards under the 1940 Act and other applicable law for their consideration of the proposed renewal of the Fund Advisory Agreements. In addition, the Board considered information reviewed by the Board during the year at other Board and Board committee meetings. No representatives of the Advisor or Sub-Advisor were present during the Board’s consideration of the Fund Advisory Agreements, and the Independent Trustees were represented by their legal counsel with respect to the matters considered.

Form N-CSR Items 8 - 11 (Unaudited) - Continued

In renewing each Fund Advisory Agreement, the Board and the Independent Trustees considered a variety of factors, including those discussed below. In their deliberations, the Board and the Independent Trustees did not identify any particular factor that was controlling, and each Trustee may have attributed different weights to the various factors.

Liberty Street Advisors, Inc.

Nature, Extent, and Quality of Services

With respect to the performance results of the Fund, the meeting materials indicated that the Fund's total return for the one-year period was above the Peer Group and Fund Universe median returns, the ICE Index return, and the Bloomberg Index return. The Fund's annualized total return for the three-year period was above the Fund Universe median return and the Bloomberg Index return, and was the same as the Peer Group median return, but was below the ICE Index return by 0.42%. For the five-year period, the Fund's annualized total return was below the Bloomberg Index return, the Peer Group and Fund Universe median returns, and the ICE Index return by 4.48%, 5.16%, 6.81%, and 8.15%, respectively. The Trustees considered the Advisor's assertion that the Fund's underperformance over the five-year period was attributable to a four-day period in March 2020, during which the Fund's net asset value declined 67% due to the effect that the outbreak of COVID-19 had on the fixed income markets; and at that time, there was a significant decline in liquidity in the fixed income markets, including in the Fund's holdings, which caused a corresponding decline in the market values of those securities. The Trustees also observed that the Fund's performance ranked it in the first or second quartile of the funds (which are the most favorable) in the Peer Group and Fund Universe for the one- and three-year periods.

The Board also considered the overall quality of services provided by the Advisor to the Fund. In doing so, the Board considered the Advisor's specific responsibilities in day-to-day management and oversight of the Fund, as well as the qualifications, experience, and responsibilities of the personnel involved in the activities of the Fund. The Board also considered the overall quality of the organization and operations of the Advisor, as well as its compliance structure. In addition, the Board considered the respective roles of the Advisor and the Sub-Advisor, noting that the Advisor provides overall supervision of the general investment management and investment operations of the Fund and oversees the Sub-Advisor with respect to the Fund's operations, including monitoring the investment and trading activities of the Sub-Advisor, monitoring the Fund's compliance with its investment policies, and providing general administrative services related to the Advisor's overall supervision of the Fund; and that the Sub-Advisor's responsibilities include day-to-day portfolio management. The Board and the Independent Trustees concluded that based on the various factors they had reviewed, the nature, overall quality, and extent of the management and oversight services provided by the Advisor to the Fund were satisfactory.

Advisory Fee and Expense Ratio

With respect to the advisory fee paid by the Fund, the meeting materials indicated that the annual investment advisory fee (gross of fee waivers) was higher than the Peer Group and Fund Universe medians by 0.36% and 0.70%, respectively. The Trustees considered that the Fund's advisory fee was not in the highest quartile of those funds in the Peer Group. The Trustees noted that the Advisor does not manage any other mutual funds, pension funds, or institutional separate accounts using the same objectives and policies as the Fund, and therefore they did not have a good basis for comparing the Fund's advisory fee with those of other similar accounts of the Advisor. The Trustees also noted that the Fund's advisory fee was within the range of advisory fees paid by other series of the Trust managed by the Advisor.

The annual total expenses paid by the Fund (net of fee waivers) for the Fund's most recent fiscal year were higher than the Peer Group and Fund Universe medians by 0.23% and 0.83%, respectively. The Trustees considered, however, that the average net assets of the Fund's class considered by Broadridge were significantly lower than the average net assets of corresponding classes of funds in the Peer Group and Fund Universe, and that certain of those other funds also had significant assets in other classes.

Form N-CSR Items 8 - 11 (Unaudited) - Continued

The Board and the Independent Trustees concluded that based on the factors they had reviewed, the compensation payable to the Advisor under the Advisory Agreement was fair and reasonable in light of the nature and quality of the services the Advisor provides to the Fund.

Profitability, Benefits to the Advisor, and Economies of Scale

The Board next considered information prepared by the Advisor relating to its costs and profits with respect to the Fund for the year ended March 31, 2024, noting that the Advisor had waived a portion of its advisory fee for the Fund. The Board and the Independent Trustees concluded that the profit of the Advisor from its relationship with the Fund was reasonable.

The Board also considered the benefits received by the Advisor and its affiliates as a result of the Advisor's relationship with the Fund, other than the receipt of its investment advisory fee, including the benefits received by its affiliated broker-dealer in connection with the marketing of Fund shares, the beneficial effects from the review by the Trust's Chief Compliance Officer of the Advisor's compliance program, the intangible benefits of the Advisor's association with the Fund generally, and any favorable publicity arising in connection with the Fund's performance. The Trustees noted that although there were no advisory fee breakpoints, the asset level of the Fund was not currently likely to lead to significant economies of scale, and that any such economies would be considered in the future as the assets of the Fund grow.

Bramshill Investments, LLC

Nature, Extent, and Quality of Services

The Board considered the overall quality of services provided by the Sub-Advisor to the Fund. In doing so, the Board considered the Sub-Advisor's specific responsibilities in day-to-day portfolio management of the Fund, as well as the qualifications, experience, and responsibilities of the personnel involved in the activities of the Fund. The Board also considered the overall quality of the organization and operations of the Sub-Advisor, as well as its compliance structure. The Board's observations regarding the performance of the Fund are described above. The Board and the Independent Trustees concluded that based on the various factors they had reviewed, the nature, overall quality, and extent of the management services provided by the Sub-Advisor to the Fund were satisfactory.

Sub-Advisory Fee

The Board reviewed information regarding the sub-advisory fee charged by the Sub-Advisor with respect to the Fund, and noted that the Fund's sub-advisory fee was higher than the fee that the Sub-Advisor charges to sub-advise another mutual fund with similar objectives and policies as the Fund. The Board considered the Sub-Advisor's assertion that the Fund's investment mandate involves securities with substantially lower credit quality relative to the other mutual fund, and that the higher sub-advisory fee for the Fund is warranted given the additional work required with respect to such securities. The Board observed that the Advisor pays the Sub-Advisor's sub-advisory fee out of the Advisor's advisory fee.

The Board and the Independent Trustees concluded that based on the factors they had reviewed, the compensation payable to the Sub-Advisor under the Sub-Advisory Agreement was fair and reasonable in light of the nature and quality of the services the Sub-Advisor provides to the Fund.

Benefits to the Sub-Advisor

The Board considered the benefits received by the Sub-Advisor as a result of its relationship with the Fund, other than the receipt of its sub-advisory fee, including any research received from broker-dealers providing execution services to the Fund, the beneficial effects from the review by the Trust's Chief Compliance Officer of the Sub-Advisor's compliance program, the intangible benefits of the Sub-Advisor's association with the Fund generally, and any favorable publicity arising in connection with the Fund's performance.

Form N-CSR Items 8 - 11 (Unaudited) - Continued

Conclusion

Based on these and other factors, the Board and the Independent Trustees concluded that renewal of the Fund Advisory Agreements was in the best interests of the Fund and its shareholders and, accordingly, renewed each Fund Advisory Agreement.
